FIFTY-FIFTH YEAR No. 79

LINCOLN, NEB., TUESDAY MORNING, JANUARY 1, 1957

FIVE CENTS

SEEING IN THE NEW YEAR

Greeting the New Year with appropriate noise, banner and party hat is Anthony Franklin, 16-month-old son of Mr. and Mrs. R. A. Franklin of 2140 Kessler Circle. (Star Photo.)

## U.S. Swings Into 1957 Confident Of Prosperity

By JAMES LEE

WASHINGTON (INS) — The United States swings into 1957 Tuesday in a "happy new year" mood reflecting confidence that prosperity is here to stay and that perplexing problems abroad can be solved.

## NEW YEAR ROAD TOLL INCHES UP

By The Associated Press

New Year's holiday traffic deaths continued far below the disastrous Christmas weekend rate but safety experts, while gratified, feared an upsurge would mark the first hours of 1957.

Early Tuesday 265 persons had died in traffic accidents; there were 36 fire fatalities and 72 deaths in miscellaneous holiday accidents for an over-all toll of 373.

At the same time last Tuesday, during the Christmas weekend, traffic accidents had claimed 478 lives.

A spokesman for the National Safety Council said the organization was gratified at the lower rate, but warned: "The danger hours are right ahead—at the start of 1957."

### Pronounced Rise

He said the early hours of New Year's Day generally were marked by a pronounced rise in the number of highway deaths recorded.

The count of New Year holiday fatalities commenced at 6 p.m. Friday.

During a similar 102 hour Christmas period 706 persons lost their lives in traffic mishaps, a record for any holiday. Added to these were 54 who died in fires and 124 in nontraffic accidents for an over-all total of 884, also a record.

The National Safety Council estimated before the New Year holiday began that 490 lives would be lost in traffic over the long weekend. The record traffic toll for a New Year holiday is 407 during the four-day period of 1952-53.

## Lincoln's First New Year Baby Is 7-Pound Girl

Little Sheryl Renne Heidecker, born at 12:40 a.m. Tuesday in Lincoln General Hospital, is Lincoln's first baby of the new year.

The 7 pound, 5½ ounce tot is the daughter of Mr. and Mrs. LaMar Heidecker of 228 So. 17.

There will be two birthdays in a row at the Heidecker family—dad's birthday is Dec. 31. Presently unemployed, Mr. Heidecker specializes in bakery work.

Lincoln enjoyed a quiet New Year's Eve with just six auto accidents reported, only one in which there was an injury.

City police booked two for drunkenness and ticketed one "probable" drunk driver. County lawmen had but one drunk from the evening's celebrating.

## Crowd Gasp

BRENTWOOD, England (AP) — Marlon Brando was yacking away in the idiom of Broadway to Jean Simmons in the movie "Guys and Dolls."

Suddenly the full house in a Brentwood cinema gasped. Brando had begun abruptly to speak Italian, then the crowd giggled as Brando and Miss Simmons sang lustily in Italian.

After 10 minutes the trouble was found. A reel with dubbed in Italian had been mixed in with the English version of the movie.

## Open New Year's Day

Klein's IGA & Bakery. Every day low prices. 815 So. 11.—Adv.

## Dallas Girl Found Slain

DALLAS (AP) — Jeanette Irene Mangan, 12, was found stripped, beaten and shot to death Monday night in an isolated west Dallas area.

Police said she apparently had been raped. Her baby brother was found asleep nearby.

Justice of the Peace W. E. Richburg returned a verdict of murder. Chief of Police Carl Hanson announced the arrest of two Latin American youths, 16 and 19 years old. Both denied any connection.

The girl's 14-month-old brother, Dick, was found by police asleep in tall grass a short distance from his sister's body. His fingers were smeared with blood. But he was not hurt.

The father, M. D. Mangan, said the little girl had taken four soda water bottles from the house "to trade them down at the store for some candy for the baby."

## 1957 To Get Chilly Start

The new year is slated for a cold beginning Tuesday with much colder air due to move southward from central Canada into eastern and northern Nebraska.

Eastern Nebraska is to be much colder, the Weather Bureau said. Partly cloudy skies over the state are to hold higher readings to 25 in the northeast and 40 to 45 in the southwest and extreme west.

Northerly winds are expected to add a harsh bite to the cold readings.

Temperatures for the final day of the year Monday hit highs of 50 across the state. North Platte reported the early morning low of 20.

Meanwhile, the Weather Bureau reported that Lincoln's 65-degree reading Sunday shattered the previous record high temperature of 61 for Dec. 30. The previous record was set in 1891.

## Two Killed In Propane Gas Truck Blast

... 15 Are Injured

KENEDY, Tex. (AP) — A propane gas truck overturned on a curve and exploded. Two persons were killed and 15 persons were treated for burns.

The driver, M. M. Comargo, San Antonio, was trapped in the cab and cremated.

A jagged piece of the metal truck, thrown 300 yards, struck and killed Mrs. Robert Blomstedt, 22, an expectant mother, who was in her backyard.

Five firemen and ten spectators were treated for burns at a hospital. Five of the fifteen remained in the hospital for further observation.

The truck overturned on a curve at the intersection of U.S. Highway 181 and Highway 72 within the city limits of this town 60 miles south of San Antonio.

### The Weather

NEBRASKA: Partly cloudy Tuesday; much colder east, slightly colder west Tuesday; highs Tuesday 25 northeast to 40-45 southwest and extreme west.

KANSAS: Considerable cloudiness through Tuesday night; colder Tuesday; extreme east Tuesday night; high Tuesday 30s northeast to 40s west, south.

## Youths, Mothers-To-Be Urged:

## Hold Shot Applications Until Jan. 17—Dr. Googe

By DEL HARDING

Star Staff Writer

City-County Health Department Director Dr. James T. Googe urged Monday that pregnant women and youths 19 and under who are not in school wait until after Jan. 17 before applying for free polio shots.

This, he said, will facilitate handling of the more than 6,000 school children who will be vaccinated at the department, 935 R, from Jan. 7-18. Children 19 and under and pregnant women may

## Newsman Radios From China On Americans

NEW YORK (AP) — A Baltimore newsman, the first American to broadcast from Red China since the Korean War, said there are indications some imprisoned Americans may soon be released.

William Worth, a Negro reporter for the Baltimore Afro-American, gave his report on the Columbia Broadcasting System's radio broadcast, "World News Roundup."

He said the small Western diplomatic colony in Peiping is awaiting the arrival there of Prime Minister Chou En-lai for "possible further word" on 10 Americans still held by the Reds.

"For the past six weeks of the Premier's travels through Asia," Worth said, "he has dropped hints that at least some of the 10 American prisoners would earn early parole for good behavior."

### 'Espionage'

"Even without such time off the sentences of 3 of the 10, a Lutheran missionary, a Franciscan priest and a Jesuit priest are due to be up in March, April and June of the New Year."

"So far as can be learned here, the general charge of all 10 cases has been espionage."

Worthy was one of three American newsmen who incurred the displeasure of the U.S. State Department by defying its ban on newsmen entering Red China.

Besides Worthy, a Look magazine reporter-photographer team, identified as Edmund Stevens and photographer Phillip Harrington, defied the ban.

Worthy entered Red China through Hong Kong last Monday.

### 'Trading'

The State Department last week revoked the passports of the three newsmen, and said their cases were being called to attention of the Treasury Department in connection with the "trading with the enemy act."

Officials said the act carries with it broad retaliatory powers against violators, including confiscation of their property and bank accounts.

Details as to how it might apply to the newsmen were not specified, but it was assumed that any purchase they might make in China—such as a newspaper—might be construed as trading with the enemy, officials said.

The State Department has said the continued imprisonment of the 10 Americans was the reason for its ban on newsmen going there.

## NipponAvalanche Kills 7 Truckers

TOKYO (INS) — Seven persons were killed Monday when an avalanche sent two Japan Express Company trucks plunging into a river at Fukui, northwest of Tokyo.

The trucks, carrying 18 men, were part of a four-vehicle convoy led by a snow-clearing bulldozer at the time of the accident. A 150-man rescue team, rushed to the scene, managed to dig out 11 men from the snow.

## Noon Today Will See Legislators Take Seats

By ROY CAMPBELL

Star Staff Writer

Forty three state senators will plunk themselves down in the leather confines of their Legislature seats Tuesday—at high noon—for the beginning of the 68th legislative session.

And only providence knows how long the session will last. Speculation on this, however, has hinged around six months or less. The number of legislative bills scheduled for introduction is keeping abreast—at least in those now set for introduction—with the 1955 pace.

That year there were more than 550 bills introduced.

Guesses are that the Legislature will name its speaker, clerk, postmaster, chaplain, and chairman of the Committee on Committees Tuesday.

What with its being New Year's Day, most senators seem to believe there should be attention given on-

ly to the necessities. One of these includes accepting the report of the Canvassing Board on the results of the general election in November.

The Committee on Committees, which names members of the standing committees, likely will not meet Tuesday night as usual. This has been a procedure long followed in legislative work.

One of the most prominently mentioned senators for the chairmanship of the Committee on Committees is Sen. William McHenry of Nelson.

A former member of the powerful Budget Committee, Dr. McHenry—he's a dentist by trade—is re-nor will give his message.

But whether or not the Legislature puts in a full day Tuesday, the session will begin in earnest Wednesday. Thursday, the governor will make his state of the union message.

And then the bills—an expected 500 plus of them—start coming in.

## H. C. Luckey Dies; Former Congressman

EL CERRITO, Calif. (AP) — Henry Carl Luckey, former Democratic Congressman from Nebraska's 1st District, died here Monday after a brief illness. He was 88.

A former rancher, real estate broker and attorney in the Lincoln, Neb., area, Luckey was elected to Congress in 1934. He served two terms.

Luckey moved to California 10 years ago. He recently published an autobiography, "Eighty-Five American Years."

Born in East St. Louis, Ill., Luckey moved to Columbus, Neb., in 1873 and to Lincoln in 1900. He was a graduate of the University of Nebraska where he received three degrees—bachelor of arts, master of arts and bachelor of laws. He also took work in economics and state government at Columbia University.

During his services in congress, Luckey was chiefly interested in the farm relief program and was the author of several bills in that area.

It was through his efforts that the \$850,000 addition to the Lincoln federal building was secured.

Lutheran Leader

One of the leaders of the Lutheran church in Nebraska, he was particularly interested in the enlargements of its program for Christian education, to which he was a liberal contributor. At one time, he gave a farm to the Tabitha Home.

A member of Grace Lutheran Church in Lincoln, Mr. Luckey was also a member of the Chamber of Commerce and the Lions Club.

Survivors include two daughters, Mrs. Helen Dailey of Pleasant Hill, Calif., and Mrs. Anna Paul of Berkeley, Calif., six grandchildren and eight great grandchildren.

Funeral services are scheduled Wednesday at Ryan Funeral Home at Richmond. Burial will follow at Sunset View Cemetery, El Cerrito.

### U.S. Was Generous

NEW YORK (AP) — Americans contributed \$6,100,000,000 to philanthropy in 1956, the American Assn. of Fund-Raising Councils says. About \$3,120,878,000 of this was in religious giving. Individuals accounted for 70 per cent of the gifts.

HENRY C. LUCKEY

## C-54 Safe After SOS From Sea

NORFOLK, Va. (AP) — A C-54 Military Air Transport Service plane made a safe landing at Bermuda Monday night after reporting in mid-afternoon she was low on fuel and might have to ditch 550 miles east of Bermuda in the Atlantic Ocean.

The distressed plane was escorted back to Bermuda by a Coast Guard patrol plane dispatched from the island immediately after the original S-O-S was received.

The Coast Guard here said the C-54 put down at a landing field on Bermuda.

Fifth Coast Guard District Headquarters here received the original distress information from Overseas Airway Control in New York. It said the patrol plane, a Martin Mariner, made visual interception of the distressed plane and was escorting her back to Bermuda.

The Coast Guard said it had no information on how many were aboard the C-54, where she had taken off or where she was heading.

When the S-O-S was received here the Coast Guard sent an "alert" message to all ships in the area. This was canceled after the patrol plane intercepted the C-54. The Coast Guard cutter Cook Inlet was dispatched to the area from Bermuda.

## Dulles And Dag Have Long Talk

Full Co-Operation With U.N. Is Promised

UNITED NATIONS, N.Y. (INS) — Secretary of State Dulles told Dag Hammarskjold Monday that the United States will co-operate fully with the U.N. in safeguarding the peace and independence of the Middle East against Soviet expansion.

At the same time, Dulles also told the U.N. secretary general that the U.S. is determined to resist Soviet military, political and economic intervention in the vital region and will use force if necessary to keep it from falling into Communist hands.

Dulles conferred with Hammarskjold on President Eisenhower's new plan for using American troops to keep the Middle East free of Kremlin control.

The secretary announced that he will report to the President on his talks with the U. N. chief Tuesday.

Dulles, Hammarskjold and U. S. ambassador to the U. N. Lodge were closeted 90 minutes at the Waldorf-Astoria Hotel discussing the new American policy, which also envisions large-scale economic assistance to Middle East countries.

Dulles said he and Lodge had a "full talk" with Hammarskjold on Middle East questions and the need for co-ordinating U.S. and U. N. policies in seeking a solution of the vital problems of the area, including the Suez Canal dispute and the bloody Arab-Israeli conflict.

The secretary of state issued a statement after the conference which said:

"Recent events in the Middle East make it necessary that the United States should further develop its policies in relation to that area. Nothing in this respect has yet been finalized and many points of view will need to be considered."

"Among other things, the United States' policies must be such as will reinforce and fit into United Nations' policies."

"President Eisenhower accordingly asked me to discuss the matter with Secretary General Hammarskjold who is ably carrying heavy United Nations' responsibilities in the Middle East."

"It will be helpful to have this United Nations point of view before the President at his bipartisan foreign policy discussion tomorrow afternoon with the congressional leaders."

The chief elements of the "doctrine," which Dulles made clear is still in the processing stage, are:

1. A "hands off" warning to the Soviet Union that the U.S. will fight if necessary to prevent Communist seizure of the oil-rich Middle East by direct attack or subversion.

2. A 500-million-dollar U.S. economic aid program to raise living standards in Middle East nations and draw them into close relations with the west.

The plan was devised in an effort to find in 1957 a fresh solution of the thorny political and economic problems of the region which have long defied settlement.

## Fuel For Rocket Explodes In Home; 8 Youths Injured

BOISE, Idaho (AP) — Fuel intended to propel a homemade rocket exploded here Monday, burning seven boys and one girl.

The youngsters, all in their teens, are members of the Boise Rocket Club. None was burned seriously.

Police said the teen-agers were brewing a mixture for use in a two-stage rocket about three-feet long and three inches in diameter when the fuel exploded in the basement of the Joseph Bennett home.

Damage to the basement was slight.

### Russ Output Gains

MOSCOW (AP) — The Soviet Union claims industrial production in the Russian federation—the heart of Soviet Russia—was 8 per cent greater in 1956 than in 1955. An official report announced all industries in the area exceeded their 1956 quotas.

### King's Drive Inn re-opens

We will be open for business Jan. 2, 11 a.m.—1340 No. Cotner.—Adv.

## Syria Hits U.S. Policy In Mideast

WASHINGTON (AP) — Syria warned the United States Monday against any new policy of relying on U. S. military force to guard the strategic Middle East from Russian aggression or subversion.

Ambassador Farid Zeineddine, acting on instructions from his government, proposed instead that the United States work mainly through the United Nations to maintain the uneasy Middle Eastern peace.

The Syrian action came as Secretary of State Dulles met in New York with top United Nations officials to explain how he thought the proposed new American policy would help the U. N. ease tensions among Israel and the Arab nations.

Zeineddine delivered to the State Department an eight-point denunciation of a reported Eisenhower administration decision to ask Congress for standby authority to use American armed force, if necessary, to check Soviet expansion moves in the Middle East.

"The so-called Soviet penetration of the Arab East is not real," the Syrian envoy said. "Tensions in western Asia and North Africa are due primarily to colonial Zionist actions and policies."

Zeineddine challenged the two main premises on which Eisenhower and Dulles are understood to be basing the new policy, which is to be explained to congressional leaders Tuesday.

The Syrian contended there is no "vacuum" in the Middle East, now which Russia is threatening to fill, or any real threat of Soviet aggression or subversion in the area.

### Not From Outside

If there were a vacuum, he said, it would be filled by nations of the area and not from the outside.

Syria has never sought an American military shield, he stressed, because "the United Nations Charter alone can serve as a basis for future action."

Responsible State Department officials said they were not alarmed at Syria's advance notice that it would refuse to co-operate with the new policy.

## First Refugee Family Arrives In Howard Co.

ST. PAUL, Neb. (AP) — Howard County's first European refugee family arrived here Saturday from Germany to begin a new life in the United States.

They are Mr. and Mrs. Eugene Schuttner, their son, Jurgen, 16, and their daughter, Karheing, 8, to make their home on the farm of Mr. and Mrs. Harold Glines near Cushing.

Schuttner was a carpenter, mason, and truck driver and can operate a tractor. He has done little farming, but hopes to learn farming here.

The family originally lived in Danzig, Germany, but moved to Western Germany and came to America with the aid of the Lutheran Church.

### Today's Chuckle

"Sir, do you have an opening in this office for a smart young man like me?" asked the job applicant.

"Yes, we do," said the office manager, "and please don't slam it on your way out."

# Saar Returns To Germany

## Coal-Rich Area Now A Bonn State

SAARBRUECKEN (Tuesday) (AP)—The Saar became a part of West Germany Tuesday.

At the turn of the New Year, under terms of a French-German treaty signed last October, the 990-square-mile coal-rich basin joined West Germany politically as its 10th state.

It will be integrated economically by the end of 1959.

The Saar has been a pawn between France and Germany since the start of the 18th Century. Both countries sought control of its wealth of coal and steel.

After being pushed back and forth for years, the Saar finally was placed under the control of the League of Nations after World War I.

In 1935 it was returned to Nazi Germany as the result of a plebiscite. But after World War II, the Saar acquired tight economic ties to France.

### Vote to Return

Then in 1955 the Saarlanders, still German-speaking, voted to return to Germany. The French-German agreement followed.

Here are some of the immediate effects of the treaty:

1. The Saar's nearly one million inhabitants become citizens of West Germany.

2. The Saar comes under the laws and constitution of West Germany. Its citizens become subject to the draft.

3. Operation of the vast complex of coal mines goes from French-Saar control to joint French-German regulation for the next three years.

4. Control of the Saar's postal and rail systems goes to Germany.

## Livestock, Crop Prices Jump 1 Pct.

### ... Parity Ratio Up

WASHINGTON (INS) — The Agriculture Department reported Monday that crop and livestock prices rose 1 per cent during the month ended Dec. 15.

It said that prices paid by farmers during the period were unchanged from a month earlier, thus increasing the parity ratio by 1 per cent. The parity ratio shows the relationship between farm cost and farm income.

The mid-December parity ratio of 82 per cent was 1 per cent higher than a month earlier and 2 per cent above a year ago.

The Department said in its monthly report on agricultural prices that higher prices paid farmers for hogs, commercial vegetables and tobacco more than offset lower prices for cattle, cotton and dairy products.

This month's index of prices paid by farmers was 4 per cent higher than a year ago.

### 'Good Basis'

LONDON (AP)—President Tito said that relations between Yugoslavia and Poland are on a good basis for "wider co-operation," Belgrade radio announced.

Recent talks between the Polish Workers Communist party and the Yugoslav League of Communists in Warsaw "have a great significance for constructive co-operation between the two parties," Tito said.

Flames raze cathedral in Hartford. (AP Wirephoto)

## Connecticut's Largest Cathedral Is Destroyed

... Hartford Fire Loss Over 5 Million

HARTFORD, Conn. (AP)—Furious shooting flames Monday wrecked the huge and historical St. Joseph's Roman Catholic cathedral, Connecticut's largest. Damages were estimated at more than five million dollars by City Manager Carleton F. Sharpe.

The fire, the second in a Catholic church here in 31 hours, brought from Fire Chief Henry G. Thomas the statement that "they have to be more than coincidence."

He added, however, there was no concrete evidence of arson.

Church officials said the building was insured for four million dollars.

The cathedral and St. Patrick's church, destroyed by fire early Sunday morning, are little more than a mile apart in downtown Hartford.

Acting on the suspicion that an arsonist might be on the loose, Police Chief Michael J. Godfrey ordered police to guard every church and synagogue in Hartford, the state's capital.

Mayors in Bridgeport, New Haven and Waterbury, issued almost identical orders as "protective measures."

There are 13 Roman Catholic churches in Hartford now, and some 125 others of various denominations, including synagogues.

Gov. Abraham A. Ribicoff offered police the full facilities of the state, including state police.

## Gasoline War May Continue Until Spring

Gasoline prices at most Lincoln service stations have dropped 6.5 cents a gallon for regular gas and Bill Deneke, president of the Lincoln Retail Petroleum Assn. said, "It looks like this will be a long price war, probably lasting until spring."

Prices for regular gas dropped from 30.9 to 24.4 cents at most stations and other Lincoln stations were expected to lower their prices by Wednesday.

Stations on Cornhusker Highway are, for the most part, charging 24.4 cents a gallon for regular gas. Premium gasoline prices around the city are two to three cents higher than regular and indicate a drop of 6.5 to 7.5 cents a gallon.

A spokesman for one of the major distributors said the price-cutting began Saturday when an independent oil company began giving discounts. Other independent service stations followed and then Standard Oil Co. was the first major firm to follow, he said.

A survey of gasoline price cuts in Lincoln shows that four major brands have reduced the price of regular gas from 30.9 cents to 24.4 and premium from 33.9 to 26.4. Most of these reductions started Sunday and Monday.

Two brands have reduced their prices to 26.4 for premium, but were previously charging 33.4. Another chain is charging 27.4 for premium gas.

### -FEDERAL BUDGET-

## No Tax Cut In Sight

Increase In Spending Is Probable

WASHINGTON (AP)—President Eisenhower Monday gave Republican congressional leaders a preview of his budget for the next fiscal year. They said afterwards it calls for increased spending, within income but with little or no room for tax cuts.

Some of those at the White House meeting estimated the planned spending for the fiscal year, beginning next July 1, at about 72 billion dollars. Another said 70 billions would "not be far off."

Spending in the current fiscal year is estimated at \$69,100,000,000 and it has already been predicted that up to two billions more would be asked for defense spending than is being spent this year.

### Lengthy Session

The White House meeting lasted from 9 a.m. until after 5:30 p.m., with a mid-day recess. Several cabinet members sat in. These were other items reported to newsmen afterwards:

1. Eisenhower told the GOP leaders he wants Democrats to have a part in forming any new policy on the Middle East. He wants to hear from the Democrats at a bipartisan meeting Tuesday before making any decision on a possible request for standby authority to commit American troops to halt any aggression in the Middle East.

2. Eisenhower said he intends to press for action on civil rights legislation in the new Congress, which meets on Thursday. The party leaders said they would get behind this.

### Some Demos Opposed

Some leading Democrats have come out against the proposal for granting the President advance fight-if-necessary authority for the Middle East.

Eisenhower was reported Monday to have stressed that majority support of both parties would be essential to the success of any policy move in the Middle East.

For that reason the President apparently refrained from even discussing the Middle East proposal with the Republicans Monday, telling them he wants to have the Democrats help shape the decision at Tuesday's conference.

While the President held out the prospect of a balanced budget, two of the GOP congressional leaders took a dim view about the possibility of tax reduction.

### Domestic Matters Only

Senate Minority Leader Knowland (Calif.) stressed that only domestic matters were in the picture at Monday's session, but he added that from an over-all point of view:

"I don't think there is likelihood of a tax reduction if we maintain a balanced budget and apply some payment on the debt."

House Minority Leader Martin (Mass.) told a news conference that he looks for no important tax cuts unless there is a substantial increase in revenue.

Martin held open the possibility of "some small" cuts.

### Baptist Official Will Locate In Holdrege

HOLDREGE, Neb. — The Rev. Roy E. Jones, newly appointed director of town and country work for the Nebraska Baptist Convention, will make his home in Holdrege and serve churches of the state from here. He has been pastor at Olathe, Colo., since 1952.

## U.S. Population Up 2.8 Million In 12 Months

WASHINGTON (AP)—About 2,800,000 more Americans can celebrate New Year's Day than did so a year ago.

The Census Bureau estimated the U.S. population on Jan. 1, 1957, at 169,600,000, including the armed forces overseas.

This is 44 times as great as the tally of 3,900,000 in the first national count, the census of 1790.

And if new Americans keep arriving at the recent birth rate of one every 7 1/2 seconds, some 11,500 New Year's Day babies will be born.

### Weather Ahead

Extended forecast for Nebraska: Temperatures will average near or slightly above normal during the five days Tuesday through Saturday, with cooler at the beginning of the period, and turning colder Friday or Saturday. Normal highs range from the lower 30s in the northeast to the upper 30s in the southwest, and normal lows from 10 along the northern border to 16 in the southeast. Little or no precipitation is expected.

### Nuckolls Soil Meet

SUPERIOR, Neb. — Harvey G. Bobst, state conservationist, will be guest speaker at the annual meeting of the Nuckolls County Soil Conservation District Tuesday, January 8, at the city auditorium in Superior.

## STOCK TRADING SPURTS AS YEAR COMES TO END

NEW YORK (AP) — The stock market wound up the old year Monday in a blaze of trading that carried many pivotal issues into higher territory.

At 3,680,000 shares, activity was the fastest since Feb. 29 and caused the high speed ticker to fall five minutes behind the deluge of transactions.

The over-all rise in the market on New Year's Eve was moderate, amounting to 80 cents in The Associated Press 60-stock average which closed at \$181.50 after profit-taking reduced earlier gains. At the end of 1955, the average closed at \$180.20.

Steels and oils were the stand-out performers with gains that

ranged to \$4 or \$5 a share. There were some significant losses, however, among the aircrafts, rails and motors.

Of the 1,275 issues traded, 589 went up and 459 down. There were 25 new highs for the year scored and 56 new lows.

Wall Streeters attributed the sizzling pace to confidence that 1957 would be a good business year. Other reasons cited for Monday's heavy sales: "Window dressing" by investment firms eager to start the New Year with plenty of blue chips in their portfolios, year-end selling to establish tax losses, and buying for investment.

# Convincing Proof...

## that Walker-Adams Gives you a New Way to Buy and a New Way to Save on Famous Brand Woolens

With an operation that is streamlined and costs cut to the bone... with a fantastic buying power directly with the fabric mills plus a craftsmen-to-customer policy... only Walker-Adams could bring you a clothing buy like this, so good that we not only guarantee 100% satisfaction but we also guarantee to save you AT LEAST 1/3 off the normal price.

# Vic 'Misunderstood' On Moving Of Health Lab

By ROY CAMPBELL  
Star Staff Writer

Gov. Victor Anderson said Monday there has been a "misunderstanding" of his remarks concerning moving of the Health Department laboratory out of the Statehouse.

He had not suggested moving the lab to Omaha, the governor said. His suggestion only was to move the lab out of the Statehouse where lab fumes were damaging the copper plating in the building.

A letter from Burnham Yates, president of the Lincoln Chamber of Commerce, prompted the correction of the "misunderstanding," the governor said.

**Committee Urged**

Yates' letter urged the establishment of a committee, to be named by the governor, of appropriate state officials. The committee members would work with a like unit from the Chamber toward "solving the problem of locating, in Lincoln, space for the lab."

Removal of the Health Department lab, now located on the first floor, was prompted, the governor said, by the annoying and damaging fumes from the lab work. These fumes have resulted in \$50,000 to \$60,000 damages to the copper roof from corrosion, the governor said.

He noted there presently was \$15,000 in copper plating in the basement of the building to be used in replacing damaged tiles.

An investigation of possible new locations for the Health and Agriculture Department labs is under way, Gov. Anderson said. He

has nothing definite in mind at the time, though, he stated.

Another reason for moving the labs would be to make available space for expansion of other offices in the Capitol building. Space gained by the move would take care of the Statehouse office expansion problems for another 10-20 years, Anderson said.

The Agriculture Department lab now tests fertilizers, gasoline, feeds, and seeds. The Health Department unit tests drinking water, sewage disposal samples, water pollution problems, and animals with various diseases.

One of the governor's suggestions for possible lab locations was in the Highway Department buildings south of Lincoln near the Penitentiary.

**Reass Objects**

L. N. Riss, state highway engineer, said he would object to locating the laboratories in those buildings.

One of the objections to moving the lab from the Health Department, according to Dr. E. A. Rogers, would be the problem of coordinating the work of the department 50 miles away.

The governor said Monday the misunderstanding came about from his suggestion some of the health lab functions be done at the University of Nebraska Hospital lab in Omaha. This would serve to cut down some of the duplication of work by the two units, the governor said.

Dr. J. E. M. Thomson, chairman of the State Health Board, said he favored moving the lab out of the present building. It should be located somewhere in the city close to the Capitol, though, he concluded.

## Wilbert

### Loyd Thimijan, 44, Collapses, Dies

Loyd W. Thimijan, 44, of 726 West P died Monday in Lincoln. Mr. Thimijan was pronounced dead on arrival at a Lincoln hospital after collapsing on P between 9th and 10th about 2:30 p.m.

Acting Coroner Bill Johnson said death was from natural causes. Mr. Thimijan had been under a doctor's care.

Mr. Thimijan, a Lincoln resident for over ten years, had operated a poultry acreage and an apartment house and had been employed at the Agricultural College Campus. A native of Lake City, Minn., he was a member of Trinity Lutheran Church.

Surviving are his wife, Ida; two sons Michael and Patrick; father, William Thimijan of Lake City, Minn.; and sisters, Mrs. Rubie Steffenhagen of Lake City, Minn., and Mrs. Irene Dankers of Goodhue, Minn.

## Disposal Plant Transfer Bill Being Drafted

A bill is being drafted for introduction to the next Legislature by State Sen. Fred Waggoner to permit transfer of the the Sanitary District 1 disposal plant to the city.

City Attorney Jack Pace reported that Waggoner, from Lincoln, has agreed to introduce the bill and will seek also the sponsorship of the other two senators from Lincoln.

The bill is part of a move to get the city's entire sanitary sewer system under Lincoln's own jurisdiction. The single jurisdiction is sought as a means of obtaining better bids on the sale of revenue bonds to finance a \$4 million improvement program.

Pace told the City Council that there is now nothing in the way legally to establishment of a sewer use fee. The revenue produced by the fee would be used to retire the bonds sold.

### 'Walk, Don't Walk' Law Introduced

An ordinance has been introduced to the City Council governing the use of Lincoln's new "Walk" and "Don't Walk" signs.

The ordinance stipulates that pedestrians are to start crossing an intersection only on the "Walk" sign. Once into the intersection, the crossing should be completed, even though the light changes to "Don't Walk."

Other ordinance action: Introduced: Plat of Mar-Ma-Ra-Lo Heights at 8th and Pioneer. Paving of 42nd, Vine to Paradise Park addition. Final Approval: Plat of Meadow Lane Addition north of 70th and Vine.

## Nobody Contacted About City-County Health Top Post

Nobody has yet been contacted concerning the position of Lincoln-Lancaster County health director, according to Dr. Wallace Webster, president of the Health Board.

And no action is likely to be taken, Dr. Webster said Monday night, until the Health Board meeting January 7.

Dr. Charles H. Miller Jr., of Lawton, Okla., whose name was suggested to the Board by Dr. James Googe, present director who has accepted a similar position in Erie, Pa., has not been contacted concerning the post nor is he likely to be after the Board meeting, Dr. Webster said.

Other names have been mentioned in conversation concerning the post, he said, but only Dr. Miller's name has been presented in writing.

### Charles Eastman Dies At Age 88

Charles G. Eastman, 88, of 1704 No. 30th, died Monday.

A resident of Lincoln for over 40 years, he was employed in transportation and drayage. He was a native of Portage, Wis.

Surviving are his wife, Emma L.; sister, Mrs. Lela Gonzales of Tooele, Utah; and brother, Dee Eastman of Chicago, Ill.

### Wendell Infants' Rites On Monday

Graveside services for Lena Mae and Lila Ann Wendell, twin baby daughters of Mr. and Mrs. Paul B. Wendell of 4421 Calvert, who died Monday, were held 4 p.m. Monday at Lincoln Memorial Park. The Rev. Garrett R. Carpenter officiated.

## Dana Andrews Pleads Not Guilty To Charge Of Drunk And Driving

HOLLYWOOD (AP)—Actor Dana Andrews, 47, pleaded innocent Monday to a drunk and driving charge and asked for a jury trial. Municipal Judge Ernestine Stahlhut set the trial for Jan. 28.

The actor, who is at liberty on \$263 bail, also pleaded innocent to a charge of driving without a valid operator's license.

He was arrested Saturday in North Hollywood. Police said his car struck a parked vehicle. No one was injured.

# WELLS & FROST

# Level-Headed Hero

It seems but yesterday—although it was 1936—that an Iowa farm lad named Bob Feller, hailed as the pitching find of a generation—toed the rubber for Cleveland and delivered the first pitch of the literally thousands to come which were to prove his discoverers right.

Now 18 years later he has quit the game.

Almost everyone is familiar with his career, with his dazzling fast ball. Suffice here to say that he broke virtually all of the major league strikeout records, pitched three no-hit no-run games, a dozen one-hitters, won 266 games for Cleveland and for a dozen and a half years, less three for his war service, he was the pillar of Cleveland baseball hopes.

We can say that Feller was a prudent, level-

headed hero, a solid type of citizen who did not let fame and success go to his head. He was one of the fortunate who had providently arranged his life well enough that he could say "This is it" when judgment told him that great as he had been, the baseball years from now on would trace his course downward. His career started with Cleveland. It ended there. His outside business interests are sufficient to occupy his full time and his earnings are sufficient for him.

Young America can take Bob Feller either way. His achievements in baseball were fabulous enough to inspire achievement of the generations of kids to come. His providence and citizenship constitute an impressive example of the proper use of ability. But he is best taken for the well rounded man he has been.

# Recreation Study Under Way

It was thoughtful of the directors of the projected Mid State reclamation district to request and it was cooperative on the part of the Department of Interior to direct a study by the U.S. Bureau of Sport, Fisheries and Wildlife of the project in terms of its fishing and hunting resources.

Assurance that the study is already underway was given at year end by Interior Secretary Fred Seaton who advised that Department biologists will work closely with the Nebraska program in every way. He believed the report would be ready by March 15, 1957.

Project by project over the past 20 years Nebraska has added greatly to its recreational water. Its irrigation development, while conceived with emphasis on greater and ever normal production, has carried with it great new possibilities for hunting and fishing. When

and if the Mid State project becomes a reality those resources will be further enhanced.

But Nebraska has not yet developed its new recreation facilities to their maximum possibilities. It cannot be gained that good recreation is a pleasure to most people and adds to the sum total of good living, and it is by the accumulation of delightful circumstances that a state becomes more sought out. Nebraska is seeking growth, can bountifully support it and needs it. Greater development of its woods and waters is an advisable contribution. It is also an economic factor of consequential dimensions. It is estimated that tourist spending in Nebraska is in the order of \$30 million a year. It is conceivable that fully developed hunting and fishing facilities would double this. Another \$30 million a year is not a sum to be brushed aside.

# New Sources Of Revenue

The Minneapolis Tribune is all hopped up as the result of a painstaking tax study completed in that state by a public-spirited group of men serving without pay. The study could be described as unique in one particular. It did not propose any increase in tax rates for Minnesota. It did not advocate any new forms of taxation.

It did express the belief that the need for more revenue in Minnesota could be met by a more equitable application of existing tax laws.

That means simply, it would appear, that a lot of real and personal wealth escaping taxation or paying only part of the taxes it should must be brought in on the tax rolls at fair valuation.

Here in Nebraska, with the legislature gathering for one of its more important sessions,

there is an equal interest either in new sources of revenue or more revenue from the sources now available. A Lincoln man who has given a great deal of thought to the subject made a rather amazing statement last week. He said that if Nebraska listed their intangible property at full value, and then took advantage of the federal income tax to deduct from the tax due Uncle Sam the increased levy upon intangibles for the state of Nebraska, everybody might be better off all the way around. It would keep tax money that belongs in Nebraska here in Nebraska. It would provide the revenue this state so sorely needs at times for some of its activities.

There has been a marked improvement in Nebraska in its tax program. The state is getting a better return on all property, real and personal. If there is a weakness, the chief weakness can be found in the failure of Nebraskans to report intangibles fully.

# Of Men And Things

By J. E. LAWRENCE

Here we are with a bright, shining new year to beckon to all Nebraskans to build beautiful castles in the air. It costs nothing to wish on this opening day of 1957 so here goes. A news association reports that its Nebraska newspapers picked the drought above all other developments in 1956 as the year's outstanding story. Hence this wish for abundant moisture in 1957, particularly abundant moisture during the growing season, with bumper harvests resulting. Nebraska could use a good crop year.

Naturally there is the wish, deeply-rooted in the hearts of all Nebraskans, that 1957 may resolve some of the uncertainties which tilt the scales between peace or war. The healing processes are a great boon to mankind. They have not been free to operate normally since the close of the second World War. We have faced one crisis after another. A stable, durable peace which would permit the nations of the world to spend their wealth for other than weapons of destruction would go a long way toward raising living standards the world over. At the beginning of this year perhaps it is not out of place to remind the reader that improved living standards are the world's best hope of getting along peacefully. No Nebraskans, who year in and out produce the food to satisfy hunger, will join the rest of the world in hoping for full employment—employment which will keep busy hands still busy and enable idle hands to become busy. Nebraskans will hope that in addition to improved production on the farm, population growth that has set America apart from the rest of the world reflects itself also in the state.

That population growth in the United States exceeds all expectations. At the close of 1956 it was reported in the news columns, the Bureau of Census estimated the population of this country at 169,600,000. A year ago the population estimate, said to be reasonably dependable, gave the United States a population of 166,800,000. Those figures suggest that in a single year a mature nation is growing at the rate of just slightly less than 3 million people yearly. If that growth should be maintained over a ten-year period it would mean that the United States in less than 20 years could anticipate a population of 200 million.

It was only a few years back when actuarial experts, who know about these matters of population growth, concluded that the United States would reach the end of the line with a population of 160 million people. At that point, they said, population would become stable, leveling off to remain more or less stationary thereafter. Now we are well above 160 millions and continuing to grow more rapidly in these last 20 years than at any time during the nation's life. By 1970 there seems to be solid basis for the observation that the United States will have 200 million citizens. That is going to impose its welcome burden upon fields and factories. If living standards are to remain high—if we are to continue to eat high on the hog as the saying goes and to enjoy all of the comforts and luxuries which are a part of today's standards, then industrial expansion and agricultural growth are assured.

And life with all of its satisfactions today holds equal promise. What will it be like? Nebraskans along with others will be taking to the air more or less. They will find their lives fortified and strengthened by science. They particularly will find it in the fields of health and of recreation these years ahead hold greater promise than man has ever heretofore known. On the first day of 1957 there is ample foundation for saying "Happy New Year" to all of the family if readers.

DREW PEARSON

# 29 Americans Get Verbal Bouquets

WASHINGTON — As the old year ends and the new begins, this writer, better known for his brickbats than his bouquets, would like to pay tribute to some of the people, big and little, who have worked to make democracy live. Here are some of them:

Ex-Sen. Harry Cain of Washington who got fired from the Subversive Activities Control Board for having the courage of his convictions in defending the unfairly accused . . . Leon Ackerman, Florida-District of Columbia real estate dealer, for giving him a job. Ackerman is the man who takes full-page "God Is Love" ads emphasizing what religion should mean to us . . . Herbert Maletz of the House Judiciary Committee, who has exposed more conflicts of interest inside the government than any other one man . . . Robert Sarnoff of NBC for working to put network facilities at the disposal of educational television.

Congressman Wright Patman of Texas, Tex., for his unflinching crusade for small business . . . Congressman Manny Celler of Brooklyn for his unflinching crusade against government inequity . . . Mrs. Almira Lomax of the Los Angeles Tribune one Negro editor who rebuffed the lush Republican advertising contracts that so swayed the Negro press last election . . . Mayor W. Fred Dwyer of Norfolk, Va., for working for his fellow men . . . Dave Zinkoff of the Harlem Globetrotters, for showing European and Asiatic sports fans the part played by the Negro in American sports . . . John Coley of Alexander City, Ala., for his crusade to improve mental health . . . Secretary of Labor Mitchell for his constructive job of rebuilding the Labor Department . . . Harold Stassen for his persistent efforts to

limit the weapons of war . . . Chalmers Roberts of the Washington Post for his brilliant reporting of foreign affairs . . . George Harrison of the Brotherhood of Railway Clerks, for backing the free labor unions of Europe in their battle against Communism.

Eric Johnston, head of the motion picture producers, for his untiring efforts, despite terrific obstacles, to bring peace to the Near East . . . Father John La Farge for his humanitarian editorials in the Jesuit publication "America" . . . Bob Kennedy, counsel of the Senate Investigating Committee, for his sometimes unrewarded attempts to investigate corruption and favoritism in government . . . Eugene Holman, head of Standard Oil of New Jersey, for his work on behalf of the crusade for freedom . . . Mrs. Rose Diamond of Philadelphia for her unsparing dedication to almost every local charity . . . Sen. Tom Hennings of Missouri for trying to expose the gas-oil lobby and for his thankless but constant championing of our constitutional freedoms . . . Crosby Noyes of the Washington Star for his penetrating news reports from Europe . . . Robert McKinney of Santa Fe and Sen. Clinton Anderson of New Mexico for charting new peace-time horizons for atomic energy.

Dean Francis Sayre of the National Cathedral for inviting a Jewish congregation without a synagogue to hold regular services in his Episcopal cathedral . . . Ted Streibert and Ab Washburn for putting new drive and determination into the Voice of America . . . Roswell Perkins, who helped bring order out of chaos in the Salk vaccine program in the Department of Health, Education and Welfare .

(Copyright, 1957, by The Bell Syndicate)

# ED FITZHUGH

# A Story Of The Pup With The Golden Tail

"Well?" asked Mrs. F. That was all. Just. "Well?" She was looking at the Christmas tree.

When someone knows how to use it, "well" is about as big a word as you can find anywhere. Depending on the tone you give it, it can mean just about anything. The way Mrs. F. used it, it meant, "Look here you big oaf—you've put off taking down the Christmas tree long enough. It's beginning to look like a sickly pine in a blight area, wearing somebody's used earrings. How about it?"

When a wife puts something that strongly, even if she does it by saying "well," then it is a wise husband who takes down the Christmas tree. It would not have been a difficult chore, except for the pin-needles down my neck, if I had not had so much help. It came from our dachshunds.

These two, Jeep and Gypsy, are dogs who are enthusiastic about destruction. Any kind of destruction appeals to them, from rendering a pair of new shoes worthless to digging up Mrs. F.'s bulbs in the back yard and planting them again in the middle of the lawn. The dismantling of a Christmas tree, however, has a special appeal to them. They consider it a project worthy of their full genius.

Now, had the Christmas tree been merely a small pine rooted in its forest element, it would undoubtedly have sustained her weight. However, it was not firmly rooted. Furthermore, my efforts to remove the season's decorations

had unsettled its balance. There was a grunt from Gypsy, a rustle from the tree, and it came crashing down on my back.

Gypsy, whimpering around the popcorn ball which was determinedly held in her mouth, scrambled across my head and launched into full flight with her trophy.

Jeep, seeing that she had retrieved something to eat, took out after her at a dead run. He did not get away, however, before a six-foot strand of tinsel made contact with the pine gum on his tail, and stuck there.

By the time I had disengaged myself from the fallen tree and made my way to the kitchen, which was the direction in which the dogs had headed, Mrs. F. was standing at the back door still holding it open.

"I heard them coming," she explained, a confused light in her eyes. "I thought I'd better open the door to keep them from going through the wall." She glared at me accusingly. "Have you been pulling Jeep's tail?" she demanded.

"No," I said. "Why?"

"Because it's a lot longer than it used to be. Come to think of it, it has a funny color, too. Sort of gold. Of course, he went by so fast . . ."

I didn't mind the business of getting the rest of the Christmas tree out of the house. What really bothered me was going around to all the neighbors, asking if any of them had seen a dachshund recently with a golden tail six feet long.

# RUTH MONTGOMERY

# No Tax Cut, Humphrey

WASHINGTON — A top ranking Treasury official disclosed that Treasury Secretary George Humphrey will veto any administrative efforts to launch a "Little Marshall Plan" for foreign aid, or to cut taxes next year.

The official said Humphrey foresees a balanced budget with a slight surplus, despite increased demands for foreign aid, but will insist that this amount be applied on the public debt.

He said the secretary believes that no tax reductions should be permitted until the government shows a surplus of at least three billion dollars, and that such a happy situation is not in sight this year.

"We expect revenue to go up, but spending will also increase," he explained.

The source revealed that the Treasury will oppose any tax relief even for small business, because a survey shows that most small firms are unincorporated. Consequently, a tentative plan to raise the corporate exemption has been virtually abandoned.

He said the administration will also recommend a flat extension of existing excise taxes, on the grounds that it would be "unfair" to give some tax relief without benefiting all segments of the economy.

Humphrey, who opposes a big or little Marshall Plan for our allies, has made it known that he thinks the situation can be met by

existing financial institutions.

Britain, he believes, is already "out of the woods" with its \$1,300,000,000 credit from the International Monetary Fund and its half-billion dollar line of credit from the Export-Import Bank.

When Congress returns Jan. 3, Humphrey will present Britain's request for a waiver of the \$81 million dollar interest due on an earlier U.S. loan, and ask for a ruling.

Treasury officials doubt that Britain will need all of the \$1,800,000,000 credit extended by the two world-lending agencies. A spokesman pointed out that the credits were "more in the way of a psychological prop to stabilize the British pound" than a cash settlement.

An official said the French economy is in no danger since its recent loan from the monetary fund, and that comparatively little additional American dollars will be needed—barring an outbreak of war—as a result of the Middle East crisis and the central European revolt against Soviet domination.

The source pointed out that Humphrey, in his thumbs-down on a tax cut this year, has found strong support from Chairman Harry F. Byrd of the Senate Finance Committee, and Rep. Wilbur D. Mills, No. 2 Democrat on the purse-holding House Ways and Means Committee.

# MARQUIS CHILDS

# Peace No Easy Task

WASHINGTON — Seldom in America's history has a President at the start of his second term faced problems of the gravity of those which loom large on the horizon just beyond the festivities of President Eisenhower's inauguration next month.

For the duration of the political campaign, which was all peace and prosperity, they were conveniently filed away. It is only President Eisenhower will himself now assert a positive leadership that the world can hope for a constructive approach to the issues determining whether, in the next two to five years, there is to be war or peace.

In the nuclear age, this is another way of saying survival or catastrophe. Delegation of power and authority will not be enough. A comparison with recent history suggests an interesting parallel. Mr. Eisenhower's great victory of last November was second only

to that of Franklin D. Roosevelt's in 1936. In some respects it was even more impressive than the Roosevelt sweep, since a Republican candidate cut deep into the solid South to take the electoral votes of all but five of the 48 states.

After he carried all but two states in '36, Roosevelt was at a peak of popularity unprecedented in modern times with what also appeared to be an unprecedented opportunity for employing his power and popularity to help resolve problems at home and abroad. Yet within less than three years World War II had begun and the awful chain of consequences set in motion that brought us to this perilous moment.

On that day 20 years ago when Roosevelt took the oath of office for a second time all the elements of conflict were at hand. The tinder for the blaze that was to sweep from one corner of the

earth to the other was lying all about.

Roosevelt, as his private papers and even occasionally his public utterances reveal, knew the danger. But he was either unable or unwilling to arrest the rapid drift toward disaster.

In the same way today the elements of disaster are clearly evident. No— it is any longer possible to take refuge in the comfortable assumption that with the advent of nuclear weapons war can be ruled out. With the wavering and uncertain dictatorship in Moscow now attempting to hold the Communist empire together, even the ultimate horror of a nuclear holocaust cannot be excluded.

Historical analogies are, of course, always dubious and there are nearly as many differences as similarities between the situation today and that of January, 1937.

To begin with, America's responsibility for world leadership today is widely recognized. The entire free world looks to President Eisenhower as the only leader who can act without the handicap of past commitments and from the greatest potential of strength that exists.

# The People Speak

Editor's Note: Be brief. Limit letters to 200 words or less. Letters signed by a pen name or initials must be accompanied by writer's name and address. Letters represent only contributor's view.

# Way Is Shown

Raymond, Neb.

To the editor of The Lincoln Star: C. V. Jobman of Omaha, in the Friday Star, gave us an interesting letter to read. He said that he could not make himself believe that an all-wise, all-good God would have come down to earth to teach us how to get to Heaven and then leave it to each one to figure out what he really meant. I couldn't believe such a thing as that either.

God did give us an indestructible word of authority to teach us how to get to Heaven and that word is so plain that the wayfaring man should not err therein. The highway of holiness and the way to get to Heaven is clearly revealed in God's word, the Bible, which was given by inspiration of God and is profitable for doctrine, for reproof, for correction, for instruction in righteousness that the man of God may be perfect, thoroughly furnished unto all good works. The Bible is the roadmap that clearly outlines the highway of holiness, the road that leads to eternal life. John 3:16 is the key that unlocks that treasure chest and only we ourselves shall be condemned as inexcusable if we fail to read and study it.

The reason there is so much confusion, misunderstanding, division and bickering is because people do not read it and study it as they should. The individual who has a Bible in his home yet never reads and studies it, or who reads it at only rare intervals without giving it earnest thought, is comparable to the man who may have a gold mine yet never grabs a spade to delve into its depths for the hidden riches.

The jumble we see in the religious world springs from that one cause—the failure to read and study the Bible.

Jesus said: "I am the way, the truth and the life." He also said: "Take up thy cross and follow Me."

God will make it clear enough who is responsible for the mess and what man can do to become a child of God, redeemed through the blood of Christ.

MRS. LOUIS HORNING

Merging Of Forces

To the editor of The Lincoln Star: Will you publish the following letter sent to the Mayor and the City Council?

"The undersigned direct this letter as citizens of this community and in the interests of health and safety and welfare of this community.

The proposition now before you for your consideration and passage wherein it is proposed that the firemen of this city be also used as part time policemen is in our opinion directly divergent to the public health, safety and welfare.

It is admitted by the undersigned that such a proposition certainly offers economic advantages. However, let us consider the disadvantages offered by this proposition. Let us also further consider whether or not the advantages outweigh the disadvantages of this proposal.

If it is determined that additional policemen are needed in this community for night duty and for inspection purposes, that need is for policemen (persons trained in the field of law enforcement and that need is not for additional firemen. For many years this community has enjoyed a very efficient, well-trained police and fire department, and resulting from that efficiency, the loss of life and limb in the community by reason of crime and disaster has been at a nationwide minimum for communities of this size.

By forcing our firemen to work also as policemen without additional compensation, we are calling upon them to risk their lives in the field of law enforcement as well as the risk now undertaken in fighting fires.

If, however, our firemen were given a course of training in the field of law enforcement, this may not be so. Certainly by use of this new plan, there would be no time for further training in the field of fire fighting; there would be no time for training in the field of law enforcement, and the result is the efficiency of both departments would decrease, thus tending to

# Are you eating your way to a Heart Attack?

(Asks the December 1st issue of The Saturday Evening Post)

**Cut your Cholesterol\***

Follow the **Roberts** PLAN

**\* Cholesterol is considered by many scientists to influence heart attack**

According to a recent article in The Saturday Evening Post, doctors have found new evidence that our high cholesterol (high-fat) diet may be the real villain behind coronary disease.

One specialist goes so far as to say that if everyone were to cut his fat intake by 25% we could reduce the amount of coronary disease by 50% in one generation!

It appears, however, that there are still a number of facts to be determined. For example, experts differ on whether our high rate of heart disease is caused by vegetable fats, animal fats, or the various cooking fats which have been hydrogenated.

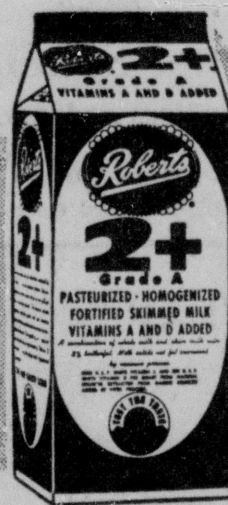

## Thousands take no chances

While waiting for further research to resolve this question, many medical men have placed their heart patients on low-fat diets in an effort to prevent recurrent attacks. And thousands of adults have voluntarily reduced their fat intake in a wise move to "rather be safe than sorry."

We are convinced that many other persons would like to follow their example, if they could only find a pleasant, painless way. For we all recognize the dangers of overweight. And now authorities tell us that fat can accumulate in our arteries, even if it doesn't pile up on our frame.

Our Research Department has therefore devised a plan to help you turn a high-fat diet into a low-fat diet; -- without changing your basic eating habits... without

**Reduces your fat intake more than 25% without changing your basic eating habits!**

**1** Reach for ROBERTS 2+; -- the delicious dairy drink that contains 42% less fat than whole milk, but more protein and minerals. Designed for modern-day living, ROBERTS 2+ is fortified with Vitamins A and D... gives you an extra supply of all the non-fat nutrients that make milk good.

**2** Reach for IMAGE; -- the new, improved, all-dairy spread that contains 70% less fat than either butter or margarine, but 18 times as much protein and five times as much calcium. IMAGE spreads nearly as well at refrigerator temperature as at room temperature... has a rich, full-bodied flavor which blends most pleasantly with bread, toast, crackers, etc. One hundred people at a party never guessed that they were not being served butter on their hot rolls.

**3** Reach for CHILL-LO; -- the frozen dessert treat that contains 70% less fat than ice cream. Made with sweet, country-fresh milk and the finest ingredients that money can buy, CHILL-LO is available in three delightful flavors... vanilla, chocolate and strawberry.

giving up delicious dairy foods... without sacrificing flavor or nutrition.

## A simple substitution

To follow the "Roberts Plan," just reach for Roberts 2+, Image, and Chill-Lo; -- instead of the high-fat products that they replace. Ounce for ounce, you'll cut your fat intake by far more than 25%.

The "Roberts Plan" is ideally suited to those of you who know you should reduce, but hate to give up good food; those of you who may be of normal weight, but wish to decrease your fat intake; and those of you who simply want to add more nutritional benefits to your daily diet.

Resolve now to let the "Roberts Plan" help you live longer, look younger, and feel better in 1957!

## Corn Soil Bank Payments Up Average Of \$5 Per Acre

Due to a change in the basic method of determining corn yields, Nebraska farmers stand to gain an average of \$5 per acre for corn soil bank payments in 1957.

Nebraska Agricultural Stabilization and Conservation soil bank expert Robert Zink said the increase would come from figuring average yields for 1957 on the basis of the past 10 years rather than the five-year basis used in determining 1956 payments.

The drought experienced in most counties the past two or three years served to drop the five-year average below that of preceding years, Zink said. This also means that Nebraska will get larger increases in soil bank payments.

## Dr. Moon, 68, Creighton Staff Member, Dies

OMAHA (U. S. P.)—Dr. Louis E. Moon, 68, died at an Omaha hospital of a heart ailment. He had been hospitalized nearly two weeks.

Dr. Moon for at least 30 years was an associate professor of surgery at the Creighton University Medical College. In 1949 he was advanced to the presidency of the American Proctologic Society and served as a member of the society's board of examiners.

A native of Audubon, Iowa, Dr. Moon was graduated from the University of Michigan Medical College in 1912. He took his internship at Methodist Hospital, in Omaha.

His widow and a daughter survive.

## UP Names Hanson To New Position

OMAHA (U. S. P.)—A. D. Hanson has been named to the newly-created position of general manager of labor relations of the Union Pacific Railroad, E. J. Connors, vice president, announced.

Hanson, who has been general manager of the South-Central District at Salt Lake City, Utah, will take over his new duties Jan. 1, headquarters in Omaha.

Elgin Hickey, vice president of operations, also announced these appointments in the operating department, effective Jan. 1.

C. H. Burnett, superintendent of the Nebraska Division, to be general superintendent with headquarters at Cheyenne.

W. E. Ross, assistant superintendent of the Nebraska Division, to be superintendent of the Division.

W. H. Anderson, trainmaster at Laramie, Wyo., to be assistant superintendent of the Nebraska Division at Omaha.

## Drought Tips Day Set For Syracuse

SYRACUSE, Neb. — Farmers in Osceola County will gather here Thursday at the Community Hall to receive information at the Drought Tips Day.

Featured will be John Furrer of the University of Nebraska College of Agriculture who will offer tips on cropping practices, pasture and weed control, and Paul Guyer, one of the NU staff, who will discuss feeds for live stock in a dry year.

Both will speak during the morning program.

In the afternoon William Owens, the county FFA supervisor, will explain how to apply for the emergency drought relief feed program.

Paul Henderson, agricultural economist with the NU, will discuss credit and finance problems.

A panel will conclude the day discussing emergency pastures, silage, use of sudan pasture, feeder steers vs. beef cows, a new livestock program, and the local credit situation.

## POSTCARD

Apia in Western Samoa lies on curving strip of beach. A one-street South Pacific port of flame-red flamboyant trees and curving coconut palms behind a white water reef.

It is one of the barely accessible islands. Every three weeks the New Zealand Teal flying boats pass through on the way to Tahiti. Weather permitting. For the past four days, weather has not permitted.

The rain has been battering Apia at the rate of ten plus inches a day. Day and night. The copra freighters stood out to sea and are cruising smudges on a squaly grey skyline.

After the first World War, the islands were given to New Zealand under a League of Nations mandate. But independence is due about 1960.

The radio runs a few hours a day, four days a week. There is no newspaper. News reports are posted on the wall of the post office.

Samoa villagers live as they always have, in thatched fale. Open houses beneath thatch, on posts bound with coconut semi-thatch mats to let down against the windward rain.

During whaling days, Apia was a roaring sailors' town. But today all Samoans belong to Christian churches—the London Missionary Society is the largest.

Liquor is prohibited. There is one occasional theater and one pool visiting speech of welcome is preceded by an orating contest. To see who will make the final speech, the Pacific.

Two strong chiefs claim to be king of Samoa. A point so under-estimated that both of them sit as chairmen in the local legislature. If independence comes, the islands will revert to a chiefly system that is extremely complicated. About one in every four Samoans is titled matai.

A high talking chief is a high-grade accomplishment among the Samoans. Mr. George Jessel would be a high talking chief. Also Mr. Gene Fowler when he is in the right frame of mind.

Orating is so important that a visiting speech of welcome is preceded by an orating contest. To see who will make the final speech, the Pacific.

# Police-Fire Plan Trial This Week

By BILL DOBLER  
Star Staff Writer

Partial integration of the Police and Fire Departments in Lincoln is expected to be started this week.

The plan was approved by the City Council after a committee of firemen appeared at the meeting to object to the principles involved.

Speaking for the committee, George Drake told the Council that the men felt this partial integration would work. It is the greater danger of complete integration and the resulting loss in Fire Department efficiency, he said, that is feared.

"We do not object to the work involved," Drake said, "nor is it a matter of pay. We oppose the idea because we feel the firemen should be kept available for fire calls."

**Will Co-Operate**

Drake told the Council that if they order the plan tried, the firemen would co-operate and make every effort to make the trial a success.

He pointed out that there would be times when the use of firemen in police cruiser cars would leave

only two firemen to man a rig. The plan, he said, has been used in many places and discarded.

A petition with the signatures of 124 of the 131 city firemen was presented in opposition to the plan.

Another petition, containing the signatures of 1,750 citizens, was also presented in opposition.

The plan of integration calls for the use of one fireman from each

## ★ ★ ★ Buying 2 Fire Rigs Approved

An emergency purchase of two pieces of fire equipment at a cost of \$50,768 has been approved by the City Council to replace the Fire Department truck and pump-er lost in a Dec. 15 collision.

The city will buy an aerial ladder from \$31,972 from the American LaFrance company. This was the low bid on the truck with delivery promised for Mar. 15.

American LaFrance was also low and given a contract for supplying a 1,000 gallon pumper to cost \$18,796. There were two lower bids on this equipment but they offered six rather than 12 cylinder trucks and steel or iron pumps instead of bronze.

The city lost both an aerial ladder and pumper when the two units collided at 16th and A on their way to a fire. Purchase price on the new equipment includes trade-in of the wrecked trucks.

## Malone Won't Quit State Post

The director of the State Division of Employment Services, Robert Malone, said Monday he does not "plan to retire on rumors."

Reports over the weekend said Malone, who has held down the Services job for 20 years, planned to retire. One of the reasons given was the fact Malone will be affected by the retirement policy of the Merit System Council.

The new policy, which becomes effective Jan. 1, specifies that an employee reaching 65 may be retired if he or his superior desire. He also may be reappointed on a year-to-year basis.

Malone said Monday he thought there was little basis to reports Gov. Victor Anderson might reappoint him as head of the division for a few months and then name someone to replace him.

## Chief Aim

TOKYO (Tuesday) — (INS) — Prime Minister Tanzan Ishibashi said that one of the chief aims of his conservative government is to contribute to the advancement of the United Nations and Japan's international status.

At the same time, the 71-year-old Prime Minister stated in his new year message to the nation that he will work for the establishment of a democratic government that would "command the trust and co-operation of the people."

## Fire Damage Slight

Firemen doused a fire late Monday afternoon at the Glen Statler home at 4125 No. 66th. Mrs. Statler attempted to light the stove and some papers near it caught on fire burning the linoleum. Fire Department officials said damage was very slight.

fire station serving a four hour shift in a police cruiser car between the hours of 3:30 p.m. and 8 a.m.

With this plan, the cruiser cars patrolling the city can be increased from four to nine during the night shift.

A large number of firemen attended the Monday meeting of the Council but none of them spoke except for the committee presentation.

Three other persons, Henry Carter, George Heaton and Leo Bartunek, spoke against the integration.

## Lincoln Beer Curfew Rang An Hour Later

Lincoln tavern patrons had an extra hour in which to enjoy themselves New Year's eve.

The City Council issued a special order permitting all beer license holders to keep their places of business open to 1 a.m. on New Year's eve rather than abide by the regular 12 midnight closing time.

The dealers had requested the extended closing hour for that one night.

## Residents Protest Opening Of Van Dorn

Some 57 residents of the area involved have submitted to the City Council a petition in protest to the opening of Van Dorn over the Rock Island tracks west of 33rd.

The petition was presented through Attorney Miles Johnston who said the opening is not needed and would be dangerous.

## Stacy On Air Base Co-Ordinating Group

Don Stacy has been appointed by the City Council as a member and secretary of the City Air Base Co-ordinating Council.

He replaces Archie J. Bailey who has resigned. The Council also appointed Mrs. Martha Rebensdorf as assistant secretary.

## Government Tightens Grip In Sumatra

JAKARTA, Indonesia (AP)—President Sukarno Monday night proclaimed a state of war and siege in south Sumatra. Unrest appeared to have spread throughout the oil-rich island.

Difficulties piled up for Premier Ali Sastroamidjojo's central government.

A state of war and siege had been proclaimed earlier for two of the three regions comprising north Sumatra. There the local military commander, Col. Maludin Simbolon, carried out a bloodless coup a little over a week ago.

He has since been driven from Medan, the north Sumatran capital, by a former subordinate, Lt. Col. Djamin Gintings.

## Similar Coup

A similar coup was carried out by Lt. Col. Achmad Hussein in central Sumatra. But the government announced Monday night it had decided to "maintain friendly relations" with him.

No official explanation was given for extension of the state of war and siege to south Sumatra, but there were press hints that the provincial governor, Winarno Danuatmodjo, an appointee of the Jakarta regime, was finding his position untenable in the face of unrest.

## Cops Search 102 Floors For 'Bomb'

NEW YORK (AP) — For the second time in 48 hours, weary police Monday searched the towering Empire State Building as the result of a fake bomb scare. No explosives were found in a check of its 102 stories.

The hysteria generated by the city's "Mad Bomber" had led to a bomb scare at the world's tallest skyscraper last Saturday. Nothing was found then either.

The 20,000-man police force was having little luck rounding up the hoaxers. Police Commissioner Stephen P. Kennedy warned:

"They will be dealt with firmly because they are in many ways hampering the search for the bomber."

## Across Nation

Meanwhile, the epidemic of bomb scares rippled across the nation, either coincidentally or as a result of the New York Mad Bomber's activities.

New Jersey continued to check false bomb reports, the latest in a Kearny apartment house and South Orange Railway Terminal.

In Kansas City, three trans-continental airliners were delayed when an anonymous caller told a reservations desk:

"I think you ought to know, there's a bomb on one of your planes going to Denver."

A bomb-like instrument was found in the men's room of the Kansas City Union Station. And a fake bomb was discovered in a Wichita, Kan., theater following an anonymous phone call.

## Sandoz Novel To Be Presented On National TV

"Miss Morissa," Mari Sandoz' novel of a pioneer lady doctor in Nebraska, will be presented on NBC Color television—2 p.m. Wednesday, Jan. 2.

Adapted for "Matinee Theater" by Helene Hanff, Miss Sandoz' book characterizes a young woman accepted as a frontier doctor, but rejected by the man she loves.

The doctor marries, on the rebound, a man of dubious character.

Miss Sandoz, a native of Sheridan County and a graduate of the University of Nebraska, first received national recognition when her biography of her father, "Old Jules," received a first place award from Atlantic Monthly magazine.

Her other works include, "Crazy Horse," "Cheyenne Autumn," "Slogum House" and "The Buffalo Hunters."

## New Year Cake

LONDON (AP)—Four Hungarian refugee chefs sent Queen Elizabeth a New Year cake of appreciation. It was decorated in the national colors of their revolution-torn homeland.

## Baker's Best for DANDRUFF

# Parching Drought Top Story In This State During 1956

By E. E. MAKIESKY  
Associated Press Writer

Drought—and efforts to beat it—produced Nebraska's top news story of 1956.

Nebraska newsmen, voting in the annual Associated Press poll to designate the 10 biggest state stories of the year, rated news of the second straight year of drought the No. 1 story. In the 1955 news poll, drought placed as the No. 4 story.

The story developed rather unspectacularly and much of it was told in the cold figures of government crop reports. The biggest headlines went to efforts to lick the problem.

Nebraska soil yielded 30 per cent less in crops than it did annually on the average during the 1947-49 period, which the Department of Agriculture regards as a base period.

Forty-seven of Nebraska's 93 counties were declared drought disaster areas eligible for price-reduced feed for foundation herds. Farmers in 59 counties were offered the privilege of grazing livestock on soil bank acres because of the feed shortage emergency.

The drought spurred irrigation development with new and greater drafts on Nebraska's tremendous reservoir of underground water.

Government also took steps to ease the blow.

The 1956 soil bank program, seized upon by farmers as a way to beat the drought, pumped more than \$1 million dollars into the state.

**Neff Second**  
Rated second, only slightly below the top story, was the news centering around a Nebraskan, John Neff of Lexington, who became a key figure in the Senate oil lobbying probe.

The story started to unravel in February when Sen. Francis Case (R-SD) named Neff as the man who offered \$2,500 to his campaign fund. Case voiced suspicion Neff's offer was designed to influence his vote on the controversial natural gas bill, intended to exempt independent gas producers from direct federal price regulation.

On Dec. 14, Neff was fined \$2,500 and given a 12-month suspended prison sentence for failing to register as a lobbyist while working for the natural gas bill. He and another employee of the Superior Oil Co. of California pleaded guilty to violating the Lobbying Act by failing to register.

The highlights of the election

year placed third and fourth in the 10 best poll.

No. 3 was the down-to-the-wire vote count in the Third District Congressional contest. It forged ahead as a top political story after other races in the November general election had been decided. Republican Congressman R. D. Harrison appeared defeated by 1,100 votes when the unofficial tally was completed Nov. 7. To all appearances Democrat Larry Brock, a Wakefield, Neb., cattleman who put on a hard-hitting campaign, had cracked through the solid Republican sweep for a seat in Congress.

Only the absentee voters ballots remained to be counted and no one expected that to affect the decision. But when the first few counties to report on the mail vote showed a trend in Harrison's favor, newsmen started digging further. Laboriously the count in each county in the district was checked, re-checked and then checked again. On November 16 the complete mail vote was accounted for. Harrison had a margin of 256 votes—later reduced to 246 in the official canvass.

No. 4 was the "Joe Smith" story which, among other things, was good for laughs. A mythical character, Joe Smith was created on the floor of the Republican National Convention by Nebraska Delegate Terry Carpenter of Scottsbluff. As "Terrible Terry" later explained it, he had intended to support Secretary of the Interior Fred Seaton for vice president but before he could nominate him, Seaton's statement refusing to be named was read to the convention.

"Right then I knew I had to get myself another candidate," Carpenter recalled. "The Lord had his arms around me and gave me the right two words—Joe Smith." When Carpenter tried to nominate "Joe Smith," he convulsed the convention, throwing it into momentary confusion.

Other top Nebraska stories:

5. Darrel F. Parker of Lincoln convicted of strangling his wife, Nancy Parker, 22, who married Parker while both were students at Iowa State College, was slain Dec. 14, 1955, in the isolated Parker home in a city owned park. Parker, 24, then was Lincoln city forester. Following his

arrest he signed a statement admitting he strangled his wife with a rope after she had rejected his after-breakfast advances. During a 17-day trial, Parker repudiated the statement. On May 3, a jury declared Parker guilty of first degree murder, fixed the penalty at life imprisonment.

6. Transport plane with 50 Lincoln Air Force base personnel aboard vanishes in Atlantic. Happy anticipation of a reunion with air base personnel after months of separation turned to sadness Oct. 11 when a Military Air Transport plane was reported lost over the Atlantic ocean. Of the 59 servicemen aboard the C-118 Liftmaster, 50 were Lincoln-based personnel returning from England where they had been since July for overseas maneuver exercises.

7. Air Guard plane crashes into parked B47s at Lincoln Air Force Base. Tragedy struck again at the Lincoln Air Force Base Nov. 17 when a jet fighter plane rammed into two parked B47 jet bombers, taking a toll of three lives, seven injured and millions of dollars damage in a spectacular crash.

8. Nebraska Supreme Court rules in favor of Consumers Public Power District in power supply dispute. The court wrote a significant chapter in Nebraska public power history in April when it held in effect that Consumers need not buy all its power from the Nebraska Public Power System. This climaxed a lengthy court battle over which agency should have the privilege of building a new power plant in Nebraska.

9. Both vice presidential nominees visit Columbus, Neb., the same day. Oct. 12 was a red letter day for Columbus when huge crowds gathered for the National Mechanical Corn Picking Contest and to hear vice presidential candidates Richard Nixon and Estes Kefauver. Vice President Nixon and his Democratic opponent spoke from the same platform but at different times of the day before audiences estimated at 60,000 to 70,000.

10. Civil Aeronautics Board begins investigation into local air service needs. Prospects of local air service for many Nebraska communities blossomed in July when the Civil Aeronautics Administration opened a hearing in the "seven states" case in Omaha.

## Betrothal Of Interest

Of much more than casual interest to Lincoln this morning is the announcement made by Mr. and Mrs. Norman Haried of Omaha, of the engagement of their daughter, Annie Lou, to Robert Volz, son of Mr. and Mrs. M. G. Volz of Lincoln.

An early summer wedding is planned.

Miss Haried will be graduated

in June from Wellesley College, Wellesley, Mass.

Mr. Volz attended Westminster College, Fulton, Mo., where he is a member of Phi Delta Theta fraternity, and was graduated from the University of Nebraska. He now is a senior at the University of Nebraska College of Medicine, Omaha, and is a member of Phi Ro Sigma.

## SUBURBIA

Imagine most of our Eastridge neighbors, as well as our other suburban friends, welcomed in the New Year last night, and are planning their day around the many Bowl games to be seen this afternoon. Wherever you happen to be, whatever you happen to be doing on this first day of the new year, we'd like to wish one and all the best of everything in 1957!

Seeing in the New Year a bit early were the members of the Trend Dancing Club and their guests, who held their celebration in the Georgian Room of the Hotel Cornhusker last Saturday evening. Lincoln guests included Mr. and Mrs. Richard Stehly, Mr. and Mrs. Bob Wagner, Mr. and Mrs. Dwayne Jones, Mr. and Mrs. Norman Stones, Mr. and Mrs. Dale Peterson, Col. and Mrs. Iann Cio, Mr. and Mrs. Dave Gregory, Mr. and Mrs. Robert McCracken, and Mr. and Mrs. John Maseman. Coming from out of town for the occasion were Mr. and Mrs. Jack O'Brian of Denver, Colo., Mr. and Mrs. Donald Dauman of Gettysburg, and Mr. and Mrs. Charles Bacon of Atlantic, Ia.

Mr. and Mrs. Robert Glatz were host and hostess to friends at their annual Christmas eve party at their home on Dec. 24. The guest list included Mr. and Mrs. Morris Huelle, Mr. and Mrs. John Maseman, Mr. and Mrs.

## PTA Council Program

The Lincoln Council of Parents and Teachers will hold its monthly meeting on Thursday evening. The council members will meet at 7:30 o'clock in the second floor auditorium of the Public School Administration Building.

Guest speakers will be Dr. H. W. Heinz, state director of dental health, and T. A. Filipi, director of the state department of sanitation, who will report on the ten-year study of fluoridation of water.

A report on polio inoculations in the Lincoln schools will be given by Mrs. William Kittrell and Mrs. Charles Hanna, members of the council's health committee.

# NOT ONE TINY RESOLUTION

IT just doesn't seem possible that there isn't at least ONE little New Year's resolution floating around someplace—but we haven't been able to coax one into our butterfly net up to now—

But we'll trade resolutions for news any day, and we do have news.

SOME of our interesting data this morning revolves around guests—Mr. and Mrs. Herman Jobst of San Francisco who spent Christmas in Peoria, Ill., and came from there to Lincoln where they are guests of Mr. Jobst's sister, Miss Suzanna Jobst.

## Celebrates Birthday

Miss Joan Stahlnecker celebrated her 17th birthday anniversary on Sunday, Dec. 30, when she entertained a group of friends at a buffet supper at the home of her parents, Mr. and Mrs. Melvin Stahlnecker. Following the supper, the evening hours were spent with dancing.

On Sunday afternoon Miss Jobst honored her visitors when she entertained at an informal open house for a group of Mr. and Mrs. Jobst's friends.

And on hursday evening Mr. and Mrs. Jobst will be complimented by the members of a dinner and bridge club to which Mr. and Mrs. Jobst belonged while residing in Lincoln. The no host party will be held at the University Club.

IN COURTESY to Mrs. Jobst Mrs. Walker Battey and her sister, Mrs. Milton Blankenship, will entertain at a brunch on Friday morning at the home of Mrs. Battey. The guest list will include the members of a bridge club to which Mrs. Jobst formerly belonged.

LAST night, as you know, was New Year's Eve, and two of the festive parties—one at Hotel Cornhusker—and the other at Hotel Lincoln—were dinner dances.

The members of Cotillion Club dined and danced at Hotel Cornhusker, and arranging for the party were this season's new members—Dr. and Mrs. Paul Peterson, Mr. and Mrs. Jerry

Druliner, Dr. and Mrs. Ralph Ludwick, Jr., and Mr. and Mrs. Ben Stephens.

The long guest list for the traditional New Year's Eve affair included Miss Mary Doyle and Mrs. David Doyle, both of New York City; Hugh Rathburn, San Diego, Calif.; Charles Battery, Chicago; Mrs. Edward F. Little of Claremont, Calif., formerly of Cleveland, O.; Mr. and Mrs. Perry Branch, Jr., of Rochester, N. Y.; Mrs. George Haecker, Phillip S. Hardy, Mr. and Mrs. James B. Harley, Mr. and Mrs. Burnham Yates, Mr. and Mrs. William Jennings, Charles White, John Baylor, Col. and Mrs. Robert Nowell, the Rev. and Mrs. James Stilwell, Mr. and Mrs. Don Jewell, Mrs. Lincoln Kilbourne, Mr. and Mrs. Richard Wilson, Mr. and Mrs.

## Club Meeting Is Postponed

The monthly meeting of the Jane Jefferson Democratic Women's Club, which was planned for Thursday, Jan. 3, following a noon luncheon at the YWCA, has been postponed indefinitely. The date of the meeting will be announced later.

## An Early New Year's Eve Party

There's not too much difference between a Saturday night and a Monday night—unless one of them happens to be New Year's Eve—such as last night. But the members of Trend Dancing Club, a group composed of Eastridge residents, had a party

scheduled for Saturday evening—and turned it into a New Year's Eve celebration—There were, as you can see, plenty of balloons, noisemakers and such and things that make a New Year's Eve party something extra-special.

In the picture, from left to

right, are Hugh McVicker, John H. Maseman, Mrs. McVicker, Mrs. Maseman, Mr. and Mrs. Paul Mulder, Mr. and Mrs. Robert Glatz, Mrs. Dean Tompkins, Mr. Tompkins, Mrs. Richard Stehly, and Mr. Stehly.

The dinner dance was held in the Georgian Room at Hotel Cornhusker.

Robert Simon, Mrs. Peggy O'Connor and James Riordan.

THERE also were numerous guests at the Gay Nighters dinner dance at Hotel Lincoln—Invited to dine and dance with the club membership were Mr. and Mrs. Walter Gaebler, Oma-

ha; Mr. and Mrs. J. Knox Jones, Jr., Lawrence, Kan.; Edwin Luikart, Sioux City, Ia.; Mr. and Mrs. Randall Ewing, New York City; Mr. and Mrs. Douglas Dale, Mr. and Mrs. Don Harrington, Mr. and Mrs. Donald Jones, Mr. and Mrs. Gerald Merritt, Jr., Mr. and

Mrs. Max Burroughs, Mr. and Mrs. Donald Hamann, and Mr. and Mrs. J. Robert Scott.

BACK in town today are Mr. and Mrs. Frank Williams, Mr. and Mrs. John C. Whitten and Mrs. Donald W. Miller who left the day after Christmas for a brief holiday at the Broadmoor.

## Holiday Party For Young Set

What with Christmas Balls, Christmas teas, informal luncheons and a variety of activity, Christmas vacation has been an unusually interesting period for members of the 'teen-age crowd.

There's but one week of vacation left, and there are those who plan to make the most of it.

Some of the fun of the current week began on Sunday evening when Miss Kay Lewandowski, Miss Sharon McConkle, Miss Joanna Rogers, Miss Gretchen Degenhardt and Miss Rojane Waller, were hostesses at a progressive dinner.

The party started with appetizers at the home of Miss Lewandowski and moved on for the salad at the home of Miss McConkle. The entree was at the home of Miss Rogers, and there was dessert at the home of Miss Degenhardt. The finale of the evening included cokes and dancing at the home of Miss Waller.

In the picture, taken at the home of Miss McConkle, are: Front row (on floor) left to right—Miss Pat Combs, Miss McConkle, Darrell Frenzel, Larry Keller and Miss Shirley Fuselman.

Second row (on floor) Miss Rogers, John Irwin and Jim Boothe.

Seated, left to right: Charles Owens, Tom Miller, Miss Carolyn Beach, Miss Waller, Gary Campbell, Chuck Rogers, Miss

Lewandowski, Miss Pat Green, Ken Wacker, Miss Nancy Standley, Miss Degenhardt and Bob Bueth.

## Bridal Party Announced

Announcing the members of her bridal party this morning is Miss Norma Jean Butterbaugh, whose marriage to Thomas C. Rotter will be solemnized on Saturday morning, Jan. 12.

Attending the bride-to-be as matron of honor for the 11 o'clock service, which will take place at St. Teresa's Church, will be Mrs. Darwin Jemming, and the brides-matron will be Mrs. Jack James.

Darvin Jemming will serve as best man, and seating the guests will be Jay Sullivan and Francis Rotter, brother of the bridegroom-elect.

Recently, Miss Butterbaugh was honored at a linen shower for which Mrs. Chester Paul and her daughter, Miss Gretchen Paul, were co-hostesses to 17 guests at their home. The evening was spent informally following a dessert supper.

# Consumers' Payments Unchanged

## 'Frozen Formula' System Upheld

By VIRGIL FALLOON  
Star Staff Writer

Consumers Public Power District's payments "in lieu of taxes" to the City of Lincoln and Lancaster County under a 1942 formula remained unchanged by a Lancaster District Court ruling.

Judge Harry Spencer, in a declaratory judgment suit by Lancaster County Treasurer C. E. Berg, ruled Monday that the city and county are separate tax-collecting authorities and Consumers is required to pay in lieu of taxes directly to the city.

In this connection, the jurist said the payment under law is unchanged from the amount determined initially when the "frozen formula" was established in 1942.

Consumers had paid \$116,460.72 into court as representing its payments for 1955 and the first half of 1956, due both the city and county.

\$29,779 To City

The court determined the city's payment to be \$29,779.58 and the county's \$86,661.14 for distribution to political subdivisions.

The decision left unchanged the amount due in lieu of taxes from Consumers to the City of Lincoln.

The county is to distribute the \$86,661.14 payment, received as a taxing district, on a pro rata basis according to current tax levies of the political subdivisions.

On this basis, subdivisions with increasing mill levies, such as the Lincoln school district, will get more money than in the past while others decreasing levies, such as the county, will receive less than formerly.

Scotts Bluff Case

This followed a 1955 Supreme Court decision in a Scotts Bluff County case which interpreted a 1947 amendment involving distribution to political subdivisions by the tax district.

However, at issue in the Lancaster County case was whether the city and county are separate taxing districts.

Judge Spencer found that Lincoln and Lancaster County are separate taxing districts, noting this was the only such situation in the state. Thus, the jurist said, the city payment is not affected by current levies in the county.

Other findings were:

1. The Sanitary District is entitled to a pro rata share of the county collections, as has been the practice in the past but was subject to controversy.
2. Successor school districts are entitled to the pro rata share of the eliminated or dissolved districts.
3. The County Board, as an equalization body, is limited in its jurisdiction to real estate assessments for Consumer. Personal holding of the power district are excluded.

The county's declaratory judgment action had named as defendants the City of Lincoln, Consumers Public Power District, the Lincoln school district, 11 villages and 43 school districts.

## Christmas Business On Par In Falls City

FALL CITY, Neb. (AP)—According to two indicators, Christmas business here was about on a par with 1955 despite the drought.

Parking meter revenue for the four weeks ending Dec. 27 totaled \$1,903, up slightly over the corresponding period in 1955. Postal revenues were \$8,014 compared with \$7,992 a year ago.

WISHING WELL

By William J. Miller

Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you. (Distributed by King Features, Inc.)

## Colorado Ready For Orange Bowl But...

# CLEMSON COACH IS DUBIOUS

## Iowa Nine-Point Pick Over State

By CLYDE TUSSEY

PASADENA, Calif. (INS)—The Iowa Hawkeyes, on the eve of the 43rd annual Rose Bowl classic, are a solid 9½ point favorite to sting the Pacific Coast Conference with its 10th defeat since 1947.

Oregon State, the champion of the Pacific Coast Conference, was given only a scant chance of upsetting the powerful Big Ten Hawkeye team. Even the Beaver coach, Tommy Prothro, was pessimistic about the OSC role of attempting to add a victory to the one win the PCC holds over the Big Ten.

However, enough fans are concerned about the outcome of the traditional game to fill the 100,000 seats in the big bowl and to pay scalper prices of \$30 a pair for tickets.

Iowa goes into the great Pasadena saucer Tuesday in the unusual position of having once defeated its Rose Bowl rival during regular season play. The Hawkeyes won a 14-13 victory over Oregon State in a hard-fought intersectional match early in the season.

Iowa supporters point out that the Hawkeyes have steadily improved since that victory while the Beavers played one of their best games of the year against Iowa.

Both coaches announced that their teams are physically fit for the contest, although Coach Forrest Evashevski's squad will be without its second and third string left ends, Jeff Langston and Bob Haussman.

Coach Prothro is concerned about his ace tailback, Joe Francis, who could be a key man in the game. He suffered a hip injury during drills and will wear special protective padding.

The game will feature Iowa's unsensational wing-T against an Oregon State version of the single wing, patterned after Red Sanders' UCLA offense. Prothro was a student of Sanders until two years ago when he went to work to revamp the perennially losing OSC squad.

The Iowans are not noted as a fast or spectacular offensive team, but the Hawkeyes were unparalleled during the season at plodding out yardage in small but regular chunks.

Both lines are big and rugged and each boasts an All-American tackle. The Iowans have Alex Karras and OSC has John Witte.

The Beavers have faster, cleverer backs with Francis the workhorse and Earnel Durden and Paul Lowe equally dangerous.

The Hawkeyes will field one of the finest quarterbacks in the land in Kenny Ploen who is a dangerous passer as well as field general. Neither team has been noted for its passing attack during the regular season but both Ploen and Francis can toss the ball and have evidenced plenty of willingness to do so in practice sessions.

## State Fair To Get 4 Race Days

The Nebraska State Fair Board Monday approved and contracted for four days of championship automobile races to be held in conjunction with the 1957 Nebraska State Fair.

Three days of speedway type race will be held on Sunday, Monday and Tuesday afternoons. A 100-mile, 200-lap late model stock car race will climax the fair on Friday afternoon.

The races will be run under the sanction of the International Motor Contest Association and will be supervised by National Speedways Inc., of Chicago, according to Fair Board Secretary Edwin Schultz.

One change in the afternoon program was made when the big car races were switched to Saturday afternoon of last year to Labor Day of this year.

Two afternoon programs are yet to be filled.

Al Sweeney, president of National Speedways, flew in from Chicago to attend the meeting and complete details for the four-day speed program which is now regarded as one of the outstanding auto racing events of the nation.

## Outfielder Added To '57 Chiefs List

Outfielder Tom Cayavec, 22, of Youngstown, Ohio, has been separated from the Army and will join the Lincoln Chiefs for spring training at Jacksonville, Fla., in March. Cayavec, a righthand hitter, is 6-foot tall and weighs 180 pounds. In 1953, his only previous year of pro ball, he hit .300 at Batavia, N.Y. of the Pony League. In 107 games he scored 88 runs, with 17 doubles, five triples, 14 homers, 23 stolen bases and 72 RBIs.

The addition of Cayavec to the roster gives the Chiefs 32 players, the full list. Bennie Rich, a stand-out pitcher, drafted by Fort Worth, Tex., earlier this month, has been in the Army since mid-November and thus the draft has been disallowed.

Former jockey Johnny Gilbert, who led the nation's riders in 1932, now is a trainer of horses at Gulfstream Park in Florida.

## Sugar Ray Fine And Fit For Title Go

By JACK HAND

NEW YORK (AP)—Sugar Ray Robinson rang out the old year by battering sparmate Lee Williams Monday in his final boxing drill for Wednesday's middleweight title defense while his opponent, Gene Fullmer of West Jordan, Utah, confined his training to roadwork.

Robinson switched operations to trainer Harry Wiley's gym in Harlem after doing road work at his Greenwood Lake, N. Y., camp. The idea of the extra sparring session, according to George Gainford, his head advisor, was "to show the public he is fit."

"We want to assure Mr. Fullmer that he will walk into the Madison Square Garden ring Wednesday night," said Gainford whose charge has been known to miss an engagement now and then.

Robinson arrived late for the workout with a blue beret set jauntily on his head. He talked briefly with reporters and then went to work.

"I have no ailments," he assured the writers. "I thought I was in good shape before I had the virus and I think I'm in good shape now."

As for Fullmer, Robinson commented, "I have had the pleasure of watching Mr. Fullmer in a few rounds with Bobby Boyd. They tell me he is something like Rocky Graziano only Rocky depended more on one punch. They say he's rough and strong."

When somebody mentioned Jake LaMotta's name, Robinson quickly said, "I sure hope he (Fullmer) is not as strong as Jake."

Wiley said he thought Robinson might be even better for this date Wednesday than for the original date Dec. 12 when he came down with a virus attack and had to ask a postponement.

"I'm very satisfied with his condition and mental attitude," said Wiley.

Ernie Braca and Harold (Killer) Johnson, Robinson's co-managers, said they planned to ask "strict enforcement of the rules against butting and low punching."

"Fullmer charges in head down," said Johnson. "I never saw him do any intentional butting. But it's just a conflict of styles."

Robinson, appraised of these plans, said he knew nothing about them. "This is the first I heard of it," he added.

In the ring, Robinson stunned Williams, a middleweight from Augusta, Ga., with a straight right in the first round and shook him up twice in the second round with right uppercuts.

Always ready to put on a show, Ray deliberately hit Williams after the final bell and then hugged him. During the sparring, Robinson nodded to friends at ringside. His camp crew said he boxed 115 rounds for the fight.

Gainford put the champion on the scales after the workout that included shadow boxing and bag punching. He weighed exactly 160 pounds, the class limit.

Robinson, who claims he is 35 although the record books say he's 36, is an 8 to 5 underdog against the young Mormon. It will be the fourth straight fight in which Sugar Ray has been the underdog.

Fullmer did about five miles on the road and then retired to a hideout where he was not available to interviewers. His manager, Marv Jensen, was around.

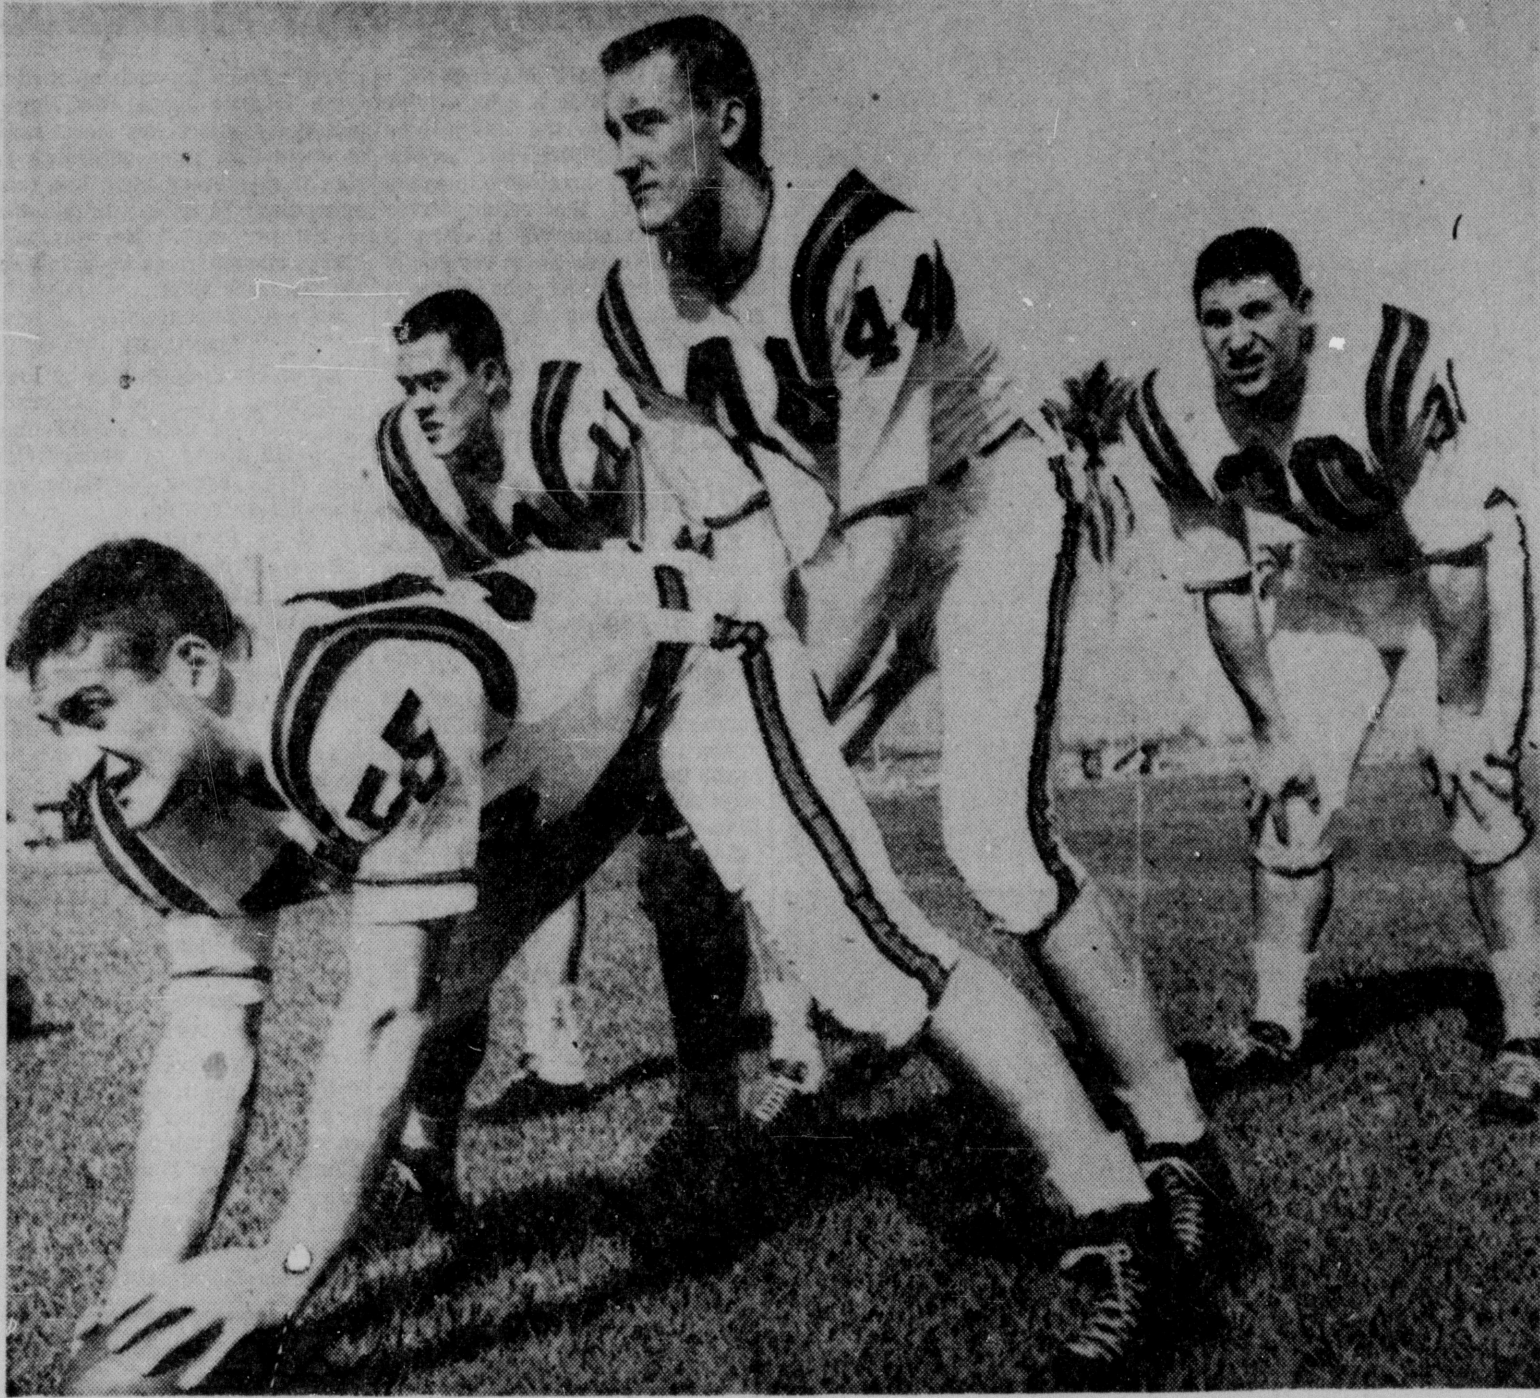

"We don't expect Robinson to try for a quick ending," said Jensen. "He's too smart. He saw Gene shake off punches from men like Boyd and Eduardo Lausse. We'll be ready to go 15 and we think he will try to be cute, counter and attempt to cut up Gene, but he's going to find Gene too strong for him."

## Omahan Tops List Of Open Qualifiers

LOS ANGELES (AP)—Dick Knight of Omaha, Neb., led 64 golfers who qualified Monday for the \$37,500 Los Angeles Open which begins Friday at the Municipal Rancho Course.

Knight shot 34-33—67 at the Lakewood Country Club, one of five qualifying courses. He recently won the Arizona State Open.

Tommy Jacobs, former Montebello, Calif., amateur star who recently turned pro qualified with 35-36—71 at Hillcrest CC. Charles Sifford of Philadelphia had 37-35—72 to lead the qualifiers at Riviera.

## Sharpening Up For Clemson

Sharpening up their wall handling techniques for their Orange Bowl date today with Clemson

are Colorado backfield men running through a play. The backs include, left to right: Eddie

Dove, Loveland, Colo.; Boyd Dowler, Cheyenne, Wyo.; and fullback John Bayuk, Salida,

## Mississippi, Texas 11s Mix Today

ORLANDO, Fla. (AP)—Mississippi Southern and West Texas State meet Tuesday night in the 11th annual Tangerine Bowl football game with the outcome rated a toss-up.

Southern, a strong independent, will enter the game with a 7-1-1 record, having lost a one-point decision to Florida State and tying Alabama.

The Buffaloes from the Border Conference posted a 7-2 record, losing to Arizona by seven points and dropping a 16-13 decision to Texas Western that cost them the loop championship.

Coaches Thad (Pie) Vann of Southern and Frank Kimbrough of West Texas sent their clubs through final light workouts Monday.

Vann called his Southerners the best all-around club he has had, better than the 1953 outfit which upset Alabama's Southeastern Conference champions.

Both clubs will be hampered by injuries. Second-string halfback Dale Wiley of West Texas will miss the game, having injured a knee in pre-Christmas practice. Southern's Curry Juneau, starting end, fractured an ankle in a workout at Panama City Thursday and won't see action.

The game will be the second bowl appearance for West Texas. The Buffaloes beat Cincinnati 14-13 in the Sun Bowl of 1951.

This is Southern's third bowl venture. Texas defeated the Southerners 37-14 in the 1953 Sun Bowl and College of Pacific handed them a 26-7 licking in the same bowl the following year.

All proceeds from the game, sponsored by the Orlando Elks Lodge, will go to the Harry-Anna crippled children's home in nearby Umatilla.

A crowd of 13,000, a near sellout, is expected for the 8 p.m. kickoff.

## ACC Orange Bowl Pact To End In '58?

NEW YORK (INS)—Sportscastr Harry Wismer says that after the 1958 Orange Bowl game, bowl officials will terminate their contract with the Atlantic Coast Conference.

Wismer, on his General Sports Time (Mutual) radio program, quoted Sports Editor Jimmy Burns of the Miami Herald as reporting that bowl officials then will invite the National Football League to hold its championship games there on New Year's Day.

In the event the pros do not accept the invitation, Burns was quoted as saying, the Orange Bowl will go after the two best available college teams in the country.

This New Year's attraction in the Orange Bowl pits Clemson of the A.C.C. against Colorado of the Big Seven Conference. Big Seven rules forbid national champion Oklahoma from repeating at the Orange Bowl.

## Gets Christmas Wish—And How

Substitute quarterback Randy Duncan of the Iowa Hawkeyes, who let it be known last week that he would like actress Jayne Mansfield as his Christmas present, is surprised, and pleased, as she really smooches him at

the Big Ten Banquet in Los Angeles. Fellow players had tipped off the actress of Duncan's wish. She strode to the stage during the party and invited him to come up. Incidentally, he did. (AP Wirephoto.)

## Redlegs' Paul And Tebbetts Executive, Manager Of Year

ST. LOUIS (AP)—Gabe Paul and Birdie Tebbetts of the third-place Cincinnati Redlegs Monday were named the major league executive and manager of the year by the Sporting News. Mickey Mantle of the New York Yankees won the top player award.

The national baseball weekly said in the past two years members of the pennant-winning teams, the New York Giants in 1954 and Brooklyn Dodgers in 1955, swept all three selections.

It said the third-place finish of the Redlegs in the National League was largely due to the combined efforts of Vice-President and General Manager Paul and Tebbetts and helped produce a record Cincinnati attendance of 1,125,928.

The top minor league awards from the newspaper for individual accomplishment in 1956 went to: Steve Bilko, first baseman of Los Angeles in the Pacific Coast League, player of the year.

Kerby Farrell, Indianapolis of the American Assn., manager of the year. Farrell since has been named manager of the Cleveland Indians.

Bob Howsam, president and general manager Denver of the American Assn., executive of the year,

higher classification. Marvin Milkes, business manager of Fresno in the California League, executive of the year, lower classification.

## Sime's Dash Time Misses World Mark

NEW ORLEANS (AP)—Sugar Bowl track chairman Lawrence DiBenedetto Sr. said Monday fleet Dave Sime of Duke missed the new world mark for the 100-meter dash by one-tenth of a second.

Sime, who returned to competition after a four-month layoff, sprinted the 100 meters in 10.2 seconds Sunday in the Sugar Bowl meet. Meet officials announced the time as equal to the world record.

"Our information came from the International Track and Field Federation," DiBenedetto said. "The federation approved a new mark of 10.1 later without notifying us."

The new record of 10.1 was set by the USA's Ira Murchison and Willie Williams in Berlin last August, and was approved on Nov. 29.

## Speedway 500 Pilots To Europe

MILAN (AP)—A new twist will be added to Indianapolis' speedway classic in 1957 by participation of foreign racing stars.

The new twist will be repeated at Monza's famous speedway, near here, a month later, on June 29, when the 10 top placing Americans at the Indianapolis May 29 race compete against best drivers from "the rest-of-the-world," according to a project now well underway.

As part of the two-way duel, an American rubber company now is studying production of special tires for the Monza 500-mile marathon.

Engineer Giuseppe Baciagalupo, director of the Monza speedway, said that the company was asked to study special tire needs for the track after the Italian Pirelli rubber company recently dropped its production of racing tires.

Baciagalupo said Monza requirements differ from those of Indianapolis because it requires treaded tires to prevent skidding. At Indianapolis smooth tires are used.

The company's first samples for Monza are expected to be produced soon and tested as soon as they are ready.

The American-rest-of-the-world duel was agreed upon last year by A. E. Ulmann, Sebring race organizer, Anton Hulman, president of the Indianapolis Motor Speedway Company, and Italian representatives headed by Baciagalupo.

Non-American drivers will be allowed to enter the Indianapolis race. Entry date for them has been extended to April 15, Baciagalupo said. Indianapolis authorities also have agreed to permit entry of foreign cars with wheelbases of less than the 96-inch American standard.

Italian companies planning to enter the Indianapolis competition are Maserati's famous Ferrari and Maserati factories. Baciagalupo said that both factories already are resting new engines and bodies for the Indianapolis challenge.

American contestants for the Monza race will be flown by chartered plane to Italy four or five days before the event. Their cars, according to present plans, are to be shipped by June 12 from New York.

## Omaha May Get NAIA Meet Again

OMAHA (AP)—NAIA executive secretary Al Duer Monday told the Omaha Chamber of Commerce the NAIA Tip-Off basketball tournament will again be held in Omaha in 1957 "if we get the full cooperation of business and civic groups."

He met with Mayor John Rosenblatt and Junior Chamber of Commerce officials after this year's tournament drew 7,000—3,000 less than the 1955 eight team meet.

Duer said before the NAIA makes a decision on the 1957 meet the group wants to "know first if Omahans want this tourney."

## Buffaloes Slight Favorites Today

By BERT OKULEY

MIAMI (INS)—Colorado, which gained most of its 1956 prestige in a losing effort against Oklahoma, ruled as a slight favorite to tame the once-beaten Clemson Tigers before an estimated 70,000 fans Tuesday in the 23rd annual Orange Bowl football game at Miami.

## Vols Rated 7-Plus Edge Over Baylor

By ORLO ROBERTSON

NEW ORLEANS (AP)—Undeclared Tennessee and twice-beaten Baylor, presenting fast breakaway backs operating behind yard-stingy lines, clash in the 23rd Sugar Bowl football game Tuesday with all advance dope auguring for an evenly fought contest under ideal weather conditions.

Tennessee, winner of only three of nine previous major post-season appearances including 1-9 in the Sugar Bowl, remained the 7½-point favorite Monday to chalk up its 11th straight victory since the start of the 1956 campaign.

But supporters of Baylor discounted the odds, pointing to the Bears' late season drive which carried them to an 8-2 season record and 11th on the national ranking list. Tennessee ranked second.

The weatherman fell into the carnival atmosphere that enwrapped this city of hospitality. He predicted clear skies with the temperature around 75 degrees when the two teams square off at 1 p.m., CST, before a sell-out crowd of 81,000. The game will be broadcast and televised by ABC.

Each team will have an All-America on display.

Johnny Majors, weighing no more than 162 pounds soaking wet, is the triple threat spark plug of the Tennessee team, which runs from a single wing, a formation entirely strange to the Bears from the Southwest Conference.

Bill Glass, 6-5, 230-pound ministerial student, is the bulwark of the huge, fast Baylor line which averages 212 pounds, a figure which the Volunteers' somewhat speedier, but lighter forward wall can't match.

Majors is a threat everytime he has possession of the ball. He skirts ends with the speed of a jack rabbit, passes, either long or short with deadly accuracy, and has a 43-yard average in punting with special emphasis on his quick kicks.

Baylor's answer to Majors is Del Shofner, a 9.8 sprinter whom the Baylor line delights in springing loose on a long run from scrimmage or punt return.

Both coaches were confident as they sent their charges through light limbering-up exercises Tuesday.

Bowden Wyatt, whose last appearance in a post-season game was 1955 when his Arkansas Razorbacks lost to Georgia Tech in the Cotton Bowl, said:

"We are as ready as we ever will be."

Sam Boyd, in his first year as head coach at Baylor, said:

"We didn't come over here to lose. We may not have the speed up front to match Tennessee but we can move. I look for a close, hard fought game." In two previous bowl appearances Baylor has been defeated.

## Basketball Scores COLLEGE

Georgia 69	Northwestern 73	St. Bonaventure 70	Murray 91	South Dakota 81	Lincoln 81	Oklahoma City 74	Akron 75	All-American City Tournament

## OCU Belts Oregon

OKLAHOMA CITY, (AP)—Big Hubert Reed stuffed in 24 points to lead Oklahoma City University to a 74-52 victory over Oregon Tuesday night.

Reed, 6 foot-10 junior center, scored six field goals and counted 12 of 16 free throw attempts to lead all scorers. The other Chief to score in the double figures was Larry Bradshaw, with 10.

Charlie Franklin led Oregon with 20 points on eight field goals and four charity tosses.

## OPEN LANES TODAY!

9 A.M. to 11:30 P.M.

New Brunswick Automatic Pls.tetters

## BOWL-MOR

9th & M S. E. Corner

Colorado Coach Dal Ward, whose charges started the season by unceremoniously losing to Oregon 35-0, but later gained dubious recognition by holding Oklahoma's mighty national champions to a 27-19 win, said his team "is as ready as we'll ever be."

Clemson mentor Frank Howard, on the other hand, wasn't sure "whether my boys will get up for this one by game time."

This is the second Miami appearance for the Tigers this season. The South Carolina outfit was outclassed, 21-0, by the University of Miami in November—Clemson's only loss of the year. The Tigers have been tied twice, however, 7-7 by Virginia and 20-20 in a bruising match with the University of Florida.

Colorado has managed to defeat Kansas (26-25), Kansas State (34-0), Colorado A&M (47-7), Iowa State (52-0), Nebraska (16-0), Utah (21-7) and Arizona (38-7). The Buffaloes broke even with Missouri, 14-14.

Clemson holds victories over Presbyterian (27-7), North Carolina State (13-7), Wake Forest (17-0), South Carolina (7-0), Virginia Tech (21-6) and Furman (23-7).

Despite the mediocre records of the two squads, Orange Bowl officials proclaim the match as "an even game" and predicted a turnout of 70,000.

The teams will meet at 1 p.m. (CST) and the battle will be nationally televised (CBS). Both held final drills Monday.

Colorado's main hope rests in big John (The Beast) Bayuk, giant fullback, and Boyd Dowler, sophomore quarterback who passed for three touchdowns during the regular campaign.

Clemson is pinning its hopes on flashy Joel Wells, left halfback, and quarterback Charlie Bussey, who has recovered from an injury to his passing hand early in the season that hampered his effectiveness.

The Tigers, Atlantic Coast Conference champions, are making their fifth bowl appearance and second in the Orange classic.

In 1951, the Tigers edged host University of Miami, 15-14. They appeared in the Cotton Bowl (1949) against Boston College and in the 1952 Gator Bowl, where Miami gained revenge by whipping the Tigers 14-0.

Colorado's lone appearance in a post season classic was in 1938, when the westerners lost to Rice, 28-14 in the Cotton Bowl.

The Buffs have been set up as slim three-point choices to even their bowl record at 1-1. The weatherman promised clear skies and typical Florida temperatures in the 70's at game time.

## Likes Weather

MIAMI, Fla. (AP)—Prediction of 74-degree temperature for Tuesday's Orange Bowl football game between Clemson and Colorado was interpreted as a break for the Tigers from South Carolina by Coach Frank Howard.

"We've been hoping for a warm day all along and we're mighty glad to hear we're going to get it," Howard said.

The Clemson coach said he would start Bob Spooner at fullback in place of Rudy Hayes and would use Charley Horne at right half in place of Jim Coleman, adding they earned starting roles by practice efforts.

## Heat May Melt 'Em

MIAMI, Fla. (AP)—The Colorado Buffaloes went through their final drill at Miami Stadium this morning for Tuesday's Orange Bowl football game with Clemson and Coach Dal Ward said "we're as ready as can be."

Ward said he had hoped for cool weather and that while he wasn't afraid of the one-mile change in altitude, "the heat may melt our kids."

In nine years of play, Ward's teams have gone scoreless in only two of 89 games. Seven seniors will be in the Buff's starting lineup.

Happy New Year

FROM BILL KING AND THE STAFF OF CHANNEL 10

# TCU, Syracuse Match Speed In Cotton Bowl Today

## Brown And Swink Head Backfields

By HAROLD V. RATLIFF  
DALLAS — Texas Christian and Syracuse, a couple of teams that promise to move the ball up and down the field until you think you're watching a tennis match, clash in the 21st Cotton Bowl game Tuesday.

Superbly conditioned, with strong incentive and boasting the men who can make it one of the wildest offensive struggles of this colorful contest, TCU and Syracuse were talking much about upholding sectional pride. TCU may have more since the Southwest hasn't won this game in three years.

The weather was forecast as wonderful for football, clear, pleasantly cool at 70 degrees and with 10-mile northerly winds.

There won't be as many in the big saucer as has been the case in the last nine years, with 65,000 failing by 10,000 to fill the bowl, but both coaches, Abe Martin of Texas Christian and Ben Schwartzwalder of Syracuse, said they figured it would be one of the finest games of all.

Each team has been stung by "second-raters" and Syracuse is also anxious to make a good showing because of that black day in Orange annals, the 61-6 rout it suffered in the Orange Bowl in 1953. So it's pretty certain a couple of determined teams will hit the gridiron at 1 p.m., CST.

The reason so many fans are remaining away is because TCU is the second-place team in the Southwest Conference (champion Texas A&M couldn't play in the bowl because of an NCAA probation) and has lost three games, while Syracuse is considered "second choice" for visiting team. Navy turned down an invitation.

But Coach Martin said, as he brought his grim Horned Frogs to Dallas, that Syracuse couldn't justly be called a second-rater. It was the acknowledged champion of the East and had a 7-1 record during the season, losing only to Pittsburgh.

The crowd is going to be watching Jim Brown, Syracuse's All-America halfback, the most.

Weighing 222, and able to run 100 yards in 10.2, he is probably the nation's top mark for pass interception, grabbing 20 enemy airmen with Jim Riddlon the leading culprit with six snarls.

Leading TCU is Jim Swink, who was All-America last year and all-Southwest Conference this season. Swink heads a trio of ball-carriers that is giving Schwartzwalder as much concern as Brown is giving Martin. Swink, Buddy Dike and Ken Wineburg gained 665, 658 and 598 yards respectively.

TCU also has the edge in passing with Curtis having completed 53 for 867 yards. But Syracuse had the nation's top mark for pass interception, grabbing 20 enemy airmen with Jim Riddlon the leading culprit with six snarls.

## Kentucky Loses No. 2 Scorer

LEXINGTON, Ky. — Kentucky lost its No. 2 basketball scorer Monday as junior guard Vernon Hutton underwent an emergency appendectomy.

Good Samaritan Hospital attendants said the operation was satisfactory and that Hutton was getting along fine.

Hutton became ill after returning from New Orleans where Kentucky captured the Sugar Bowl tournament.

Named the outstanding sophomore in the Southeastern Conference last season, Hutton was scoring at an average of 17.7 points a game.

Kentucky, No. 3 nationally, meets Georgia Tech here Saturday.

## Texans Favored In Prairie View Tilt

HOUSTON, Tex. — Texas Southern University, co-champion of the Southwestern Negro Conference, was a touchdown favorite for its second game of the season against Prairie View A&M in the 29th annual Prairie View Bowl Tuesday.

A crowd of 17,000 is expected at Public School Stadium.

It will be the fourth time the two teams are meeting in the annual bowl game, with each team having won twice.

Texas Southern with a 9-1 season record, defeated Prairie View, 13-7, during the regular season. Prairie View had a 4-5 record.

## Georgia Trips Florida In Conference Opener

GAINESVILLE, Fla. — Georgia, the Gator Bowl basketball champion, defeated Florida 69-62 Monday night in the first Southeastern Conference game of the season.

## Swim Carnival

Two of the events in the Lincoln YMCA swim carnival for boys required unusual equipment—tubs and goldfish. Above, Ken Knauber takes a lead in the tub race against Ronnie Stone. At right, YMCA swimming instructor Carl True shows Jack McCormick (left) and Craig Gougham (center) one of the goldfish which was released in the pool for the boys to catch. (Star Photos.)

## Sullivan Cup Goes To Diver

By MURRAY ROSE  
NEW YORK — Mrs. Patricia Keller McCormick, 26, queen of the world's divers who completed an unprecedented "double double" in the Melbourne Olympics, Monday was named winner of the James E. Sullivan AAU Memorial Trophy as the outstanding amateur athlete of 1956.

It was a fitting tribute to the statuesque, mother from Lakewood, Calif., who retired from the boards after sweeping every crown in sight. In the past three years she was a close runnerup for the Sullivan Award. This time it was no contest.

Mrs. McCormick, only woman ever to win both Olympic dives in two successive Olympics and the only one to capture all five national titles in one year, was the first choice on 300 of the 608 ballots cast by sports authorities. On the 5-3-1 count of first, second and third place votes, Pat accumulated 1,889 points.

Rafa Johnson, decathlon star from UCLA who finished second in the Olympics and is the world record holder in the 10-event sport, was second with 77 first place votes and 877 points.

Third place went to sprinter Walter Thane Baker, winner of three medals in the Melbourne games. The Elkhardt, Kan., Air Force officer, received 77 first place votes and 783 points.

Following in order were Shelley Mann, Arlington, Va., and Walter Reed S. C., Olympic 100-meter butterfly champion and world record holder in the event, 55 firsts, 693 points; Olympic weightlifting champion Tommy Kono, Sacramento, Calif., 43, 492; Charles (Chuck) Darling, of the Phillips Oilers and member of the winning Olympic basketball team, 39, 439; and Bill Zorzyk, Olympic 200-meter butterfly champion from Northampton, Mass., and the New Haven, S. C., 17, 211.

## Sullivan Winners

NEW YORK — The 27 winners of the James E. Sullivan memorial Trophy since it first was presented in 1930 are:

1930—Bobby Jones, golf  
1931—Barney Berlinger, track  
1932—Jim Bausch, track  
1933—Glenn Cunningham, track  
1934—Bill Bontrout, track  
1935—Lawson Little, golf  
1936—Glenn Morris, track  
1937—Don Budde, tennis  
1938—Don Lash, track  
1939—Joe Burk, rowing  
1940—Greg Rice, track  
1941—Les MacMillan, track  
1942—Cornelius Warmerdam, track  
1943—CJ Dodd, track  
1944—Ann Curtis, swimming  
1945—Felix Blanchard, football  
1946—Arnold Tucker, football  
1947—Jack Kelly Jr., rowing  
1948—Bob Mathias, track  
1949—Dick Button, figure skating  
1950—Fred Will, track  
1951—Bob Richards, track  
1952—Horace Ashenfelter, track  
1953—Mal Sammy Lee, diving  
1954—Mal Whitfield, track  
1955—Harrison Dillard, track  
1956—Mrs. Patricia Keller McCormick, diving

## Texas Western Favored By Two TDs In Sun Bowl Tilt

EL PASO, Tex. — A battle of speed versus weight is in the offing when Texas Western College meets George Washington University in the 22nd annual Sun Bowl football game here Tuesday afternoon.

"As I see it," said Texas Western Coach Mike Brumbelow, "it's a matter of whether we'll be as fast as they are big."

Texas Western was favored by 14 to 15½ points here. The altitude plus the advantage of playing on the home field were factors in this rating.

Colonial Coach Bo Sherman will have two equal units ready for play New Year's Day. It is a system he used effectively all season and it gave George Washington a

7-1 record in the Southern Conference.

The Colonials are a top-notch defensive team and their weight advantage of 20 pounds per man in the line may be enough to stop the speedy Miner backs.

Foremost and fastest in All-Border Conference halfback Don Maynard. Brumbelow has two equally capable quarterbacks in Bob Forrest and Bob Laraba.

## KW, New Mexico Aggies To Finals

OWENSBORO, Ky. — Kentucky Wesleyan put together 14 points in two minutes to shut off the University of Virginia 82-72 Monday night and win a berth opposite New Mexico A&M in the championship of the All-American City basketball tournament.

Wesleyan will meet New Mexico A&M in Tuesday night. New Mexico A&M upset Maryland 45-43 in the first of Monday night's semifinals. Maryland and Virginia will meet in an afternoon consolation final.

Montana State nosed out Georgetown 75-71 to move into the consolation finals.

The University of Mississippi, slated to play Iona in the other consolation game, withdrew Sunday night because the New Rochelle, N. Y., team has one Negro player, Stanley Hill.

Iona dropped a 67-64 decision later Monday to an independent team composed of former high school and college stars. Tournament officials said the outcome wouldn't affect Tuesday's schedule which pits Iona against Montana State for fifth place. Georgetown was placed seventh.

Colonial Coach Bo Sherman will have two equal units ready for play New Year's Day. It is a system he used effectively all season and it gave George Washington a

7-1 record in the Southern Conference.

## Martin 'Sports Almanac' Shapes Up Into Review

By WHITNEY MARTIN  
NEW YORK — We herewith present the 1957 edition of the Martin "little giant" sports almanac, that invaluable preview of events of the coming year which is so accurate it often is saved and used as a review of the year by those who want to get a quick idea of what didn't happen.

Occasionally a typographical error will creep in, such as spelling Gene Littler's name Ben Hogan, but every effort has been made to avoid this. Even with such errors it rates very high, one reader writing: "I think your almanac is 100 per cent." He was in a hurry, obviously, as he didn't say 100 per cent what.

Anyway, here it is:  
**JANUARY**  
Major bowl games won by Iowa, Tennessee, TCU and Colorado. Ray Robinson stops Gene Fullmer in eighth round of middleweight title fight. Rocky Marciano says he will stay retired.

**FEBRUARY**  
Baseball players begin to stir. Discover that the beer commercials: "Go now to your ice-box. . . ." can be very fattening. Ron Delany wins Wanamaker mile in 4:03. Archie Moore wants to meet Floyd Patterson again. Says he can do better now that he has more experience.

**MARCH**  
Kansas wins NCAA basketball title, and St. Louis takes Garden invitation. Al Weill's new heavyweight, Dave Rent, looks good in debut. Ball players in training think their managers are shysters after their pounds of flesh.

**APRIL**  
Cary Middlecoff wins Masters golf tournament. Cubs and Athletics away to fast starts in major races with winning streaks of one game. Mickey Mantle blasts six home runs within 10 days.

**MAY**  
Barbizon wins Kentucky Derby, and Bold Ruler takes Preakness.

Major teams begin to settle down, some of them far, far down. Marciano says he will stay retired, only this time he says positively. Patterson meets Hurricane Jackson, says: "How are you kid?"

**JUNE**  
Ben Hogan wins National Open. No opponent in sight for Patterson. Yankees five games in front in AL; Reds, Dodgers and Braves battling for first place in NL.

**JULY**  
American League wins All-Star game. Mantle hits 33rd home run. Ted Williams and Stan Musial

**AUGUST**  
Dog days, Earthquake scare traced to pro footballers starting work. Don Larsen pitches no-hitter, but it isn't perfect.

**SEPTEMBER**  
Yankees and Cincinnati win major pennants, Red Sox and Braves runners-up. Mantle wins AL triple crown again with 355 average, 58 home runs and 137 runs batted in. Musial NL bat leader with 344.

**OCTOBER**  
Yankees win World Series. Oklahoma, Tennessee, Georgia Tech, Ohio State, Iowa among grid leaders.

**NOVEMBER**  
Oklahoma again No. 1 in football poll, unbeaten. Pressure on Marciano to retire. The answer still no.

**DECEMBER**  
Navy and Army tie again, 13-13. Patterson meets Jackson, says: "Happy New Year."

**HAPPY NEW YEAR**  
Thank you for your patronage the past year & we hope to serve you better in 1957.

# 60 Million Workers To Get Pay Cut

By THOMAS J. FOLEY

WASHINGTON (INS) — Paychecks of some 60 million Americans will be cut this week.

It won't be much, but the government begins collecting a larger slice of take-home pay to pay for expanded social security benefits voted this past year by Congress.

Instead of collecting only 2 per cent of your first \$4,200 in wages, the government will take out 2 1/4 per cent. Your boss will put up an equal amount, as he always has.

For those making \$4,200 or more, the total government take will be \$94.50 a year instead of \$84 as it was in 1956.

## How To Figure

The way to figure exactly how much the weekly deduction should be is to multiply by 2.25 your regular wage before taxes are taken and then divide by 100. For instance, if your basic salary is \$80 a week, the social security deduction each week will now be \$1.80 compared to \$1.60 heretofore.

A person working for himself will start paying 3 1/2 per cent of his first \$4,200 of earnings into the fund.

Social security agency experts said from 70 to 75 million persons will contribute to the trust fund during the year. The most who pay in during any one pay period, however, is about 60 million.

For the first time, the trust fund has been divided into two parts—one for paying out benefits to disabled persons and one for providing payments to retired persons and their survivors.

The 850 million additional dollars that will be collected from the higher social security tax will go into the disability fund.

## Full Benefits

Then, beginning about Aug. 1, totally disabled persons will begin getting full social security bene-

fits at the age 50 instead of 65 as at present. Some 400,000 will be eligible for these payments at that time.

In addition, some 10,000 disabled children will be able to get special benefits in the coming month from this part of the fund.

Another change in the law allows women to collect retirement benefits at the age of 62 instead of 65 if they wish. This liberalized provision became effective in November.

## At Age 62

Widows of workers covered by

## 1956 Lincoln Moisture Near Normal

While much of Nebraska experienced one of its driest years in 1956, Lincoln received a nearly normal amount of Mother Nature's bounty with a total precipitation of 23.83 inches—just 1.92 inches under the normal 25.75 inches.

The 1956 figure for the capital city was well above the 18.17 inches precipitation recorded for 1955 due, chiefly, to the fact that the rainfall recorded for July was well above average, and the months of August and September were also above average.

The Lincoln Weather bureau reported that more snow fell in the month of December last year however, with a total of 3.3 inches as compared to 2.5 inches for December, 1956.

## Driver Given \$100 Fine, Suspension

John Frederick Smith Jr., 27, of 322 So. 19th, convicted of a drunken driving offense of Jan. 1, 1956, by a Lancaster District Court jury, has been fined \$100 and his driver's license suspended for six months.

Judge John Polk pronounced sentence after defendant waived further appeal when his motion for new trial was overruled.

## Main Feature Clock

## Forester Outlines Way To Start Red Cedar Trees

Germination difficulty is one reason why red cedar trees for wind-break plantings are in short supply according to Karl A. Loerch, extension forester with the University of Nebraska College of Agriculture.

Pointing out that the seed must be kept constantly moist until seedling time and for at least the first year after germination, Loerch suggests this process for starting red cedar trees:

1. Gather the red cedar berries in the fall, when ripe. Crush the berries, and wash away the pulp with water.
2. Either plant at once or stratify the seed over the winter. To stratify the seed, mix it with moist sand in a box and bury it about two feet in the ground or store it in fruit jars in a cool cellar (below 40 degrees F.)
3. Plant the seed, wet the seedbed and cover with a heavy mulch until the seedlings come through the surface of the soil. Keep the bed moist through the first growing season. If practical, artificial shade should be given the seedlings the first year.

## Man Fined \$300, License Suspended On Driving Charge

Richard I. Patzel, 27, of 1900 Brower Rd., convicted of second-offense drunken driving by a Lancaster District Court jury, has been fined \$300, his driver's license suspended for one year and car impounded for two months.

Judge John Polk also suspended a five-day jail sentence and placed Patzel on probation for six months. The jury conviction was Oct. 29. Patzel was previously convicted of drunken driving Sept. 2, 1955, in Platte County, according to the records.

## Alliance Business Files Incorporation Papers

The Guardian Co. of Alliance, a corporation formed to deal in business of "each and every kind... that may be transacted... for a pecuniary profit," filed articles of incorporation with the secretary of state's office.

Incorporators include LeRoy Abbott, Clyde H. Sudman, Donald Lichty and Howard Lichty, all of Alliance. Authorized capitalization is \$50,000.

Other new corporations, with authorized capitalization and incorporators, include:

Hamm's Properties of Omaha, Inc., organized to deal in real estate; \$50,000; Myer Mike Nisker and June C. Nisker, both of Omaha.

Chicoine Motor Co., Chadron; \$100,000; Roy C. Chicoine, Lillian Chicoine and Donald L. Doling, all of Chadron.

"The Sunday Journal and Star" delivered at your door is full of interesting and timely features. You'll like the sports section, too.

## Missouri Tributaries 'Still Uncontrolled'

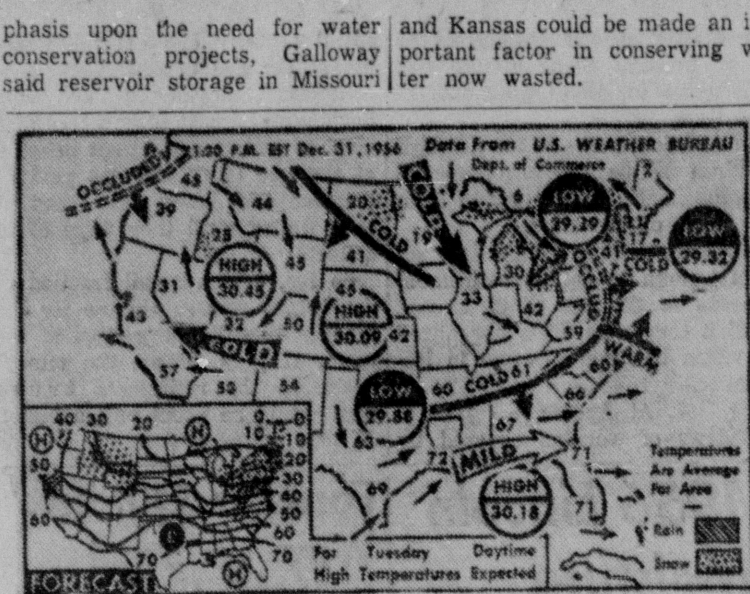

WASHINGTON (AP) — The Army Corps of Engineers reports that major flood contributing tributaries of the Missouri River in Missouri are "still uncontrolled."

The corps, which has responsibility for flood protection works along the river, is of the opinion also that drought conditions in the lower Missouri River basin in recent years have placed increasing emphasis on the need of water conservation as well as flood control.

On the brighter side, Maj. Gen. G. E. Galloway, division army engineer at Omaha, said in a year-end report to Sen. Symington (D-Mo) made public Monday, that during 1956 the authorized program of flood control and water conservation projects in the lower Missouri basin "began to pick up some momentum."

Galloway said that until the tributaries are controlled, "full flood protection in your state cannot be realized."

Reporting the increased emphasis upon the need for water conservation projects, Galloway said reservoir storage in Missouri is now wasted.

### Fair Weather Again On Nebraska Menu

Snow flurries are due in most of the Appalachians, the lower Lakes region and northern Rockies. Some rain is due in northern California, but elsewhere fair weather will prevail. It will turn

colder in the area from the middle Mississippi Valley east to the middle Atlantic Coast, in the northern plains and in the central Rockies. Little change in temperature is due elsewhere. (AP Wirephoto Map).

## Carmody Condemns Continued Use Of 'Hole' At Penitentiary

FREMONT, Neb. (AP) — District Judge R. A. Robinson of Fremont was joined Monday by former State Sen. Arthur Carmody of Trenton in condemning continued use of the old solitary confinement building known as "the hole" at the Nebraska State Penitentiary.

Carmody's comments were made in a letter to the Fremont Guide and Tribune, which had solicited his comment.

Carmody, who said he first complained about this "blot on the fair name of Nebraska" in 1951, called continued use of the old structure "a violation of legislative intent."

Judge Robinson earlier had de-

nounced use of "the hole" after he learned of it during his annual pre-Christmas visit to the Penitentiary. Judge Robinson makes a habit of paying a visit to the men at the Penitentiary who come before him for sentencing.

Carmody said he was amazed that the "ancient, dark and gloomy hole at the State Penitentiary was still in use."

Penitentiary Warden Joseph Bovey, when informed Monday of Carmody's statement, said he had "no comment and no intention of debating the issue" with the former senator.

## Two Against Standby Power For Ike

WASHINGTON (AP)—Two senior Democratic senators came out Monday against giving President Eisenhower standby authority to use U.S. troops in the Middle East if he considers it necessary.

The administration is reported to have under consideration a plan to ask Congress for the authority as a quick means of countering any Communist aggression in the strategic oil-producing area.

Sen. Sparkman (D-Ala.), a member of the Senate Foreign Relations Committee, said it looked like an unnecessary move to him.

"Congress will be on hand and the President can get immediately any authority he needs," Sparkman told a reporter.

### 'Going Alone'

Sen. Mansfield (D-Mont.) criticized the idea because he said it "would perhaps inaugurate a policy of going alone" and could subject this country to the same sort of censure that the United States

levelled at Britain and France for their military intervention in Egypt.

A better policy, Mansfield said in a transcribed radio interview (Mutual's Reporters' Roundup), would be to induce the United Nations to establish a permanent military police force. He suggested the United States could contribute a division of Marines and

a Marine air wing to the U.N. force.

Mansfield is slated to become the Democratic Senate whip, or assistant leader, in the next session of Congress opening Thursday.

The President is expected to outline his plans Tuesday at a bipartisan meeting of congressional leaders in the White House.

## Construction In December Lowest Since January '49

By BILL DOBLER  
Star Staff Writer

The lowest or worst construction month in Lincoln since 1949 was recorded during December when total estimated costs hit a low of \$227,111.

The last time any single month dropped that low was in January of 1949 when the total was \$63,510. The 1956 year still closed out, however, as the third highest building year on record with total estimated costs of \$14,227,927.

In 1955, construction was estimated at a cost of \$20,472,203, according to building permits issued by the city. The second high was 1954 with costs of \$14,896,929.

Both the number and cost of new homes for 1956 fell way behind the total for the previous year. For the 12 months just ended, permits were issued for 847 dwellings costing \$7,128,193.

In 1955, a record high of 1,813 dwelling permits were issued for homes costing \$13,502,061.

December of 1956 saw issuance

of only 19 home permits with costs of \$178,025.

The 1956 building record:

Month	Total Costs	New Homes	N. Home Costs
Jan.	\$ 376,102	40	\$250,858
Feb.	1,049,559	62	526,800
March	1,308,970	117	978,541
April	1,229,247	121	965,472
May	1,221,505	91	850,875
June	1,693,000	73	635,030
July	1,458,871	79	650,110
Aug.	2,253,949	88	716,910
Sept.	1,414,639	55	476,705
Oct.	1,065,106	71	585,800
Nov.	35,848	30	263,975
Dec.	227,111	19	178,025
Totals	\$14,227,927	847	7,128,193

## Reward Offered For Vandals At Capitol Building

Reward money of \$25 has been offered for information leading to arrest and conviction of persons responsible for damage to the State Capitol.

L. E. Lindquist, Statehouse building superintendent, said a second floor restroom door was badly carved and scratched, apparently by vandals.

Gov. Victor Anderson suggested the reward.

Additional damage was inflicted on the glazed marble walls of the capitol dome on the 14th floor, Lindquist reported. He said no estimate to the marble could be made at the time.

Lindquist said the occasional damage spree were the reason the building has been closed on Saturday afternoons.

## Church Services Open New Year

A number of Lincoln churches are holding special services in observance of New Year's Day. Included are:

## Mrs. Nellie Byrnes Dies At Age Of 79

Mrs. Nellie B. Byrnes, 79, of 1820 No. 28th, died Monday.

Born at Walton, Neb., she had lived in Lincoln 54 years. She was a member of Sacred Heart Catholic Church, the Altar Society of Sacred Heart Church, and Royal Neighbors of America.

Surviving are a daughter, Mrs. Leander M. Kalin of Lincoln; brothers, Dr. R. W. Reed and John M. Reed, both of Omaha; and four grandchildren.

## Mrs. Walker, 89, Of Geneva, Dies

Funeral services for Mrs. Nellie S. Walker, 89, of Geneva, will be held 2:30 p.m. Tuesday at the Kriener-Ashby Funeral Home in Geneva. The Rev. L. E. Warner will officiate.

Mrs. Walker died in Lincoln Monday.

A resident of Geneva for 25 years, Mrs. Walker had formerly lived at Douglas, Neb.

Surviving are her daughter, Mrs. Robert Goss of Lincoln; grandchildren, William W. and Hugh Wilkins of Geneva, Robert Wilkins of Des Moines, Ia., and Beth Wilkins of Miami, Fla.; and five great grandchildren.

### Here In Lincoln

**Cameras Stolen**—Key Harding of Lawlor's Sporting Goods & Hardware, 1118 O, reported to police Monday the theft of two 35 mm. cameras valued at \$624 from an enclosed display case back of a counter.

**Roper & Sons Mortuary**—Adv.

**Hodgman-Splain Mortuary**—Adv.

**Money Taken**—A cash box containing about \$30 was stolen from the Capitol Printing Co., 2322 O, late Sunday or early Monday, according to a report to police. Entrance was gained by breaking a rear window.

**Roberts Mortuary**—Adv.

**Wadlow's Mortuary**—Adv.

**Cub Scouts**—Cub Scout Pack 58 welcomed three new members at a meeting at Northeast Community Church. They are David Schroeder, Ronny Walker and Bobby Ellis. Mrs. Amy Skinner received a two-year den mother's pin.

**Midwest Roofing** for all types of Roofs and Siding. 5-2510—Adv.

**Admits Amended Charge**—Otto J. McGinley Sr., 51, of 1416 F pleaded guilty before Lancaster District Judge John Polk to an amended complaint of gambling on Aug. 20, 1955. The original complaint of being a common gambler was dismissed. Sentence was deferred until Jan. 19.

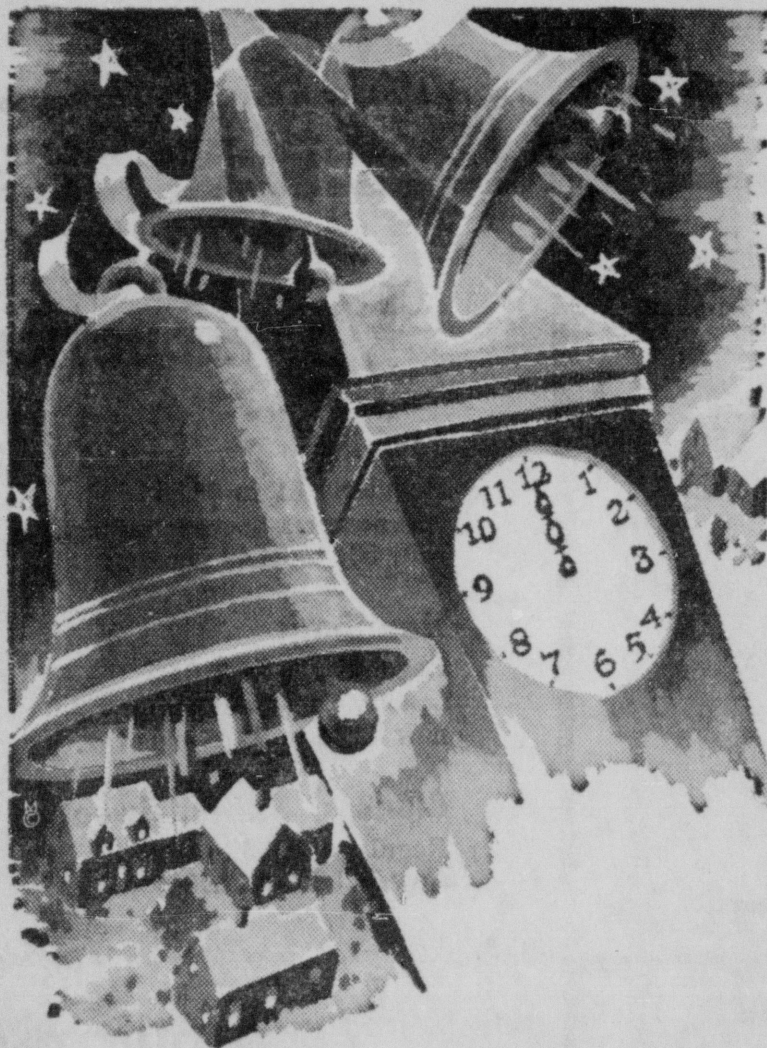

**Jewel Coal** direct from cars. Hyland's Landry Clark Co.—Adv.

**Burning Oil**—Lincoln's Fire Department received many calls concerning black smoke towering into the sky to a height of more than 200 feet Monday. The smoke, however, resulted only from railroad workers burning oil at 8th and Q.

Looking for a good car? The one you want may be advertised today in the Journal & Star Want Ads.—Adv.

## Boy In Good Condition After Burns From Bomb

Fifteen-year-old Lawrence Nellen, 6612 Ballard, was reported in good condition at St. Elizabeth's Hospital early Tuesday morning. He suffered a fractured right hand and burns when a home-made bomb he was experimenting with exploded in his home.

Our New Year's Wish for you

May peace, prosperity and good health be with you throughout the year.

# Another Integrated Bus Is Hit By Gunfire In Montgomery; No One Injured

MONTGOMERY, Ala. (AP)—Another racially integrated city bus was ambushed Monday by an assailant who, police said, apparently fired a pistol shot from a moving automobile.

Only three passengers, all white, and the driver were on the bus and no one was reported injured, although the large caliber bullet struck the bus just below driver W. H. Fullilove's seat.

It was the fifth bus shooting incident since segregation barriers

were erased under federal court order in Montgomery 10 days ago. The same driver, Fullilove, has been involved in three of the five attacks.

He was operating a bus last Friday night when a sniper fired a bullet through the side of the vehicle, wounding a young Negro woman passenger, Mrs. Rosa Jordan, 22. Mrs. Jordan was struck in both legs.

Saw Flash  
Fullilove told bus company

manager J. H. Bagley and investigating police officers that he saw a flash of gunfire from an oncoming car just before the bullet, believed to be .38 caliber, thudded into his bus Monday.

The attack occurred on the same run and the same street where Mrs. Jordan was shot but several blocks farther north. Fullilove's route goes through a predominantly Negro residential neighborhood and on to a factory area in the northern part of the

city. The attack Monday came in a business district where several stores are located.

Bagley said the busline will continue "normal operations unless some other decisions are made later." Service after 5 p.m. has been halted through New Year's Day, however, on City Commission orders.

All previous attacks on buses came at night. The shooting Monday occurred about 6 a.m. Police Detective Capt. E. P. Brown theo-

rized most of the shots have been fired from moving automobiles.

## No Description

Police Chief G. J. Ruppenthal said the bus driver was unable to give a description of the car or the occupants Monday. He reported the shooting to police and then finished his morning trick in the same bus.

Another bus driven by Fullilove was fired on twice last Friday night, once when the Negro woman was wounded and again a short

time later when no one was injured.

Two other buses were ambushed last Wednesday night, one with a rifle and the other with a shotgun. No one was hurt then.

## Pope Appears

VATICAN CITY (AP)—Pope Pius appeared in the lighted window of his Vatican apartment and gave his blessing to 5,000 Romans gathered in St. Peter's Square to wish him a happy New Year.

## South Sioux City Liquor License Suspended Week

A seven day suspension of the Class C liquor license of Robert Blessing of South Sioux City, Neb., was ordered Monday by the State Liquor Commission.

The Commission reported that the licensee sold beer to a minor. The suspension begins at the closing hour Jan. 3 and continues until the opening hour on Jan. 11.

The Commission said Blessing's co-operation with the Commission after the charges were filed, and the fact that the minor involved was just nine months under 21 years of age were "mitigating circumstances" in the case.

# Stock Market

## Volume Jumps; Gain Shown

NEW YORK (AP)—The stock market had a New Year's Eve spurge Monday, piling up the second biggest volume of the year with a fair gain on average.

The market wound up its business for 1956 only slightly higher than it closed in 1955.

Steels and oils were the pacemakers Monday but motors, aircrafts and rails lagged. Among the gainers, steel advanced 1/8, ahead from fractions to around 81.

Volume among key stocks hit 21,810,000 shares, the highest since Feb. 29, 1955, when 22,000,000 shares were traded on a day that President Eisenhower announced he would run for re-election. Monday's volume also compared with 22,000,000 on Friday.

The Associated Press average of 60 stocks rose 1/2 to 101.50. It closed the year 1955 at 100.20. Monday the industrial component rose 1/8, the rails 1/4, the utilities 1/8 and the average 1/2.

The breadth of the market and its big volume were accounted for by a number of factors. Wall Street experts said that combined with the remnant of 1955 trading volume there was increased investment of funds, investment company "winter dressing" to add high-grade stocks to their holdings as of the year-end, and a rotation by traders from stocks which have advanced a profit to some which have been neglected. Buying was also spurred by good prospects for the 1957 first quarter.

The international oil market was buoyant by news of clearing operations of the Suez Canal area prospects for resumption of some traffic by March.

The American Stock Exchange was irregular on volume, 1,750,000 shares compared with 1,300,000 Friday.

# Leftist, Pro-Soviet Cabinet Formed In Syria With Premier Assali Shakeup

By TOM MASTERSON  
BEIRUT, Lebanon (AP)—A leftist and pro-Soviet Cabinet was formed Monday in Syria.

Premier Sabri Assali picked five widely known leftists for government ministries in a shakeup that excludes the right-wing Popu-

lists, the largest single party in the Syrian Parliament.

Assali himself has been leading the Nationalist party toward the left for some time. Besides taking over the premiership of the 11-man Cabinet, he gave himself the important Interior Ministry post. And he named two members of

his party to other ministries.

Up until now, the Populists have held the brake against a stronger swing toward Russia, which has been furnishing arms to that strategic Arab nation.

Assali's old 10-man coalition Cabinet resigned Dec. 22 after six months in office to give him a free hand in obtaining a "more harmonious administration to conduct Syria's internal affairs."

The device used to push Syria closer toward the Communist bloc is the newly formed National Front. That is a Communist-inspired grouping of leftist minority parties including Socialist, Communist and other leftist deputies.

The front was set up by the Communist Khaled Bakdash, Socialist leader Akram Hourani and Khaled Azm, a pro-Soviet independent.

The new Cabinet is almost certain to win approval of Parliament. With minority parties sticking together they can outvote the Populists. The grouping commands 66 votes. Parliament has 142 seats but about 15 deputies are absent—some arrested and some fleeing.

**In Red Grip**  
For all practical purposes, Syria has been in the grip of pro-Soviet political and military leaders for some time.

Assali's success in forming the new government dashed any hope that Syria will allow war to get started quickly on restoring the oil pipelines crossing Syria from Iraq to the Mediterranean. Pumping stations on these lines, owned by the Iraq Petroleum Co., were blown up following the British-French invasion of Egypt.

## Bank Clearings Climb \$11 Million

Lincoln bank clearings were nearly \$1/2 billion during 1956, an increase of \$11 million over a year ago, indicating a probable record year.

Clearings from Jan. 1, 1956 to Dec. 31, 1956, were \$499,741,146.71. For the same period in 1955 clearings totalled \$488,636,680.48.

December figures show \$42,077,131.34 in 1956, compared with \$48,059,463.45 in December, 1955, a drop of nearly \$6 million. Clearings in November, 1956, were \$42,089,947.65.

## Rev. Wilk, 85, Dies; Minister For 58 Years

HASTINGS, Neb. (AP)—The Rev. Arthur Wilk, 85, who served the Lutheran ministry for 58 years, including more than 30 years as pastor of Wanda Zion Lutheran Church in Adams County, Neb., is dead.

The Rev. Mr. Wilk was a graduate of Concordia College, Ft. Wayne, Ind., and Concordia Theological Seminary in St. Louis.

He was a member of Faith Lutheran Church in Hastings.

The Rev. Mr. Wilk served for many years as vice president of the Southern Nebraska of the Lutheran Church, Missouri Synod, and was visiting pastor for the Hastings circuit. He had held pastorates in Arkansas, Illinois and Wyoming as well as Missouri and Nebraska.

Survivors include his widow, three daughters and three sons: Mrs. Clarence Lindberg, Hastings; Mrs. Arthur Einspahr, Holyoke, Colo.; Mrs. Elmer Hassler, Amhurst, Colo.; Oscar of Omaha, the Rev. Walter Wilk of Homewood, Ill.; and William of Adelanto, Calif.; and his stepmother, Mrs. Marie Wilk of Milwaukee.

Funeral services will be held at Faith Lutheran Church in Hastings Thursday afternoon.

## Curb Construction Brief Against Scottsbluff Is Filed

Attorneys for Mrs. Martha Hillerage of Scottsbluff, filed answer and reply briefs with the State Supreme Court Monday charging that the city of Scottsbluff has no authority to construct a curb on her property without paying her for damages.

Mrs. Hillerage had sought an injunction from the state high court to prevent the State of Nebraska and the city from constructing the curb.

Her attorneys claim that the city of Scottsbluff and the State of Nebraska are not contending that the properties of Mrs. Hillerage would not be damaged but are contending that the city can so damage her property under the police power of the city. The brief claims the city cannot use the police power method because it has not passed proper legislation.

The city, in a cross appeal to the high court, claimed that it was within its powers to construct curbs on the property and that it was not required to pay for any damages done to Mrs. Hillerage's property.

## Desk Sergeant Robert Johnson To Be Detective

Appointment of Robert L. Johnson as a detective was announced Monday by Police Chief Joe Carroll.

Johnson, who has been on the force 10 years, formerly was the 3:30 p.m. to midnight desk sergeant. Sgt. Milburn Green will replace Johnson on the radio desk.

Carroll also announced that former patrolman Roe Heston has been appointed a sergeant on the 11:30 p.m.-3 a.m. shift. Both the promotions are effective Wednesday.

## Magdalin Fiedler Funeral Thursday

Funeral services for Mrs. Magdalin Fiedler, 66, of Davey, will be held 9:30 a.m. Thursday at St. Mary's Catholic Church in Davey, with Father M. G. DeWitt officiating. Burial will be in the Catholic cemetery.

Rosary will be 8 p.m. Wednesday at Roper and Sons.

Mrs. Fiedler died Monday. A native of Touhy, Neb., she had lived all her life in the state.

Surviving are her husband, Edward; sons, Edward of Valparaiso, Neb.; John of Roca, Neb.; Henry of Ceresco, Neb.; brothers, Frank and Louis Stanislaw, both of Onawa, Ia.; George, John and Joe Stanislaw, all of Blencoe, Ia.; sister, Mrs. Anna Mastera of Morningside, Ia.; and six grandchildren.

## Lancaster Board To Reorganize, Elect Thursday

The Lancaster County Board reorganizes Thursday with a new member and possibly a new chairman.

Attorney Rollin Bailey will succeed Commissioner Chris Kuhner on the board. Kuhner did not seek re-election.

And since Chairman Russell Brehm has indicated he is not interested in the chairmanship after seven years in the post, the chairmanship could go to either Commissioner Del Lienemann or Bailey.

Lienemann, who has been vice-chairman for two years, said he is "definitely interested in the chairmanship."

\* Bailey said he has "not given it (the chairmanship) enough thought to make any comment."

## Bryan Nursing School Given Accreditation

Bryan Memorial Hospital at 4848 Sumner has received full accreditation as a school for nursing from the National League for Nursing Inc. of New York City, it was announced Monday.

Administrator Gene Edwards said the hospital's nursing school had previously operated on a temporary accreditation which the five-year-old National League for Nursing "granted to good nursing schools until they were ready to apply for full accreditation."

Bryan Memorial has had a school for nursing since 1926 when the hospital was founded. The first class was graduated in 1929.

The current nursing school class numbers 65 students which Edwards termed as "about average size."

## License Plates On Sale Jan. 2

The 1957 auto license plates will go on sale the day after New Year's — Jan. 2 — in Lancaster County.

County residents can expect to begin receiving their motor vehicle tax statements in Wednesday's mail, according to County Assessor Arthur Davis.

Ralph Saathoff, county license bureau chief, anticipates a brisk over-the-counter business Wednesday, but hopes that many car owners will take advantage of the mail service offered for payment of taxes and receipt of the new plates.

## Mrs. Lucy Barrett Dies At Age 85

Mrs. Lucy Virginia Barrett, 85, of 1626 D, died Sunday.

A native of Alton, Ill., she had been a Lincoln resident for many years. She was a member of the Presbyterian Church.

Surviving are her brother, William Stuckey of Grafton, Neb.; nephews, Frank of St. Louis, Mo.; Charles of Centerville, O.; and Dean and Don Stuckey, both of Grafton.

**Film Withdrawn**  
JOHANNESBURG, South Africa (AP)—The movie "Guys and Dolls" has been withdrawn from showings in South Africa because censors insisted in cuts which producer Sam Goldwyn would not permit.
